

ALPS PK-12 & Peers: PPE and Enrollment 2019 -> 2024

Bars show 2019 PPE with darker segment to 2024 (purple = decrease). Pale-orange mini-areas above each bar trace FTE enrollment over 2019->2024.

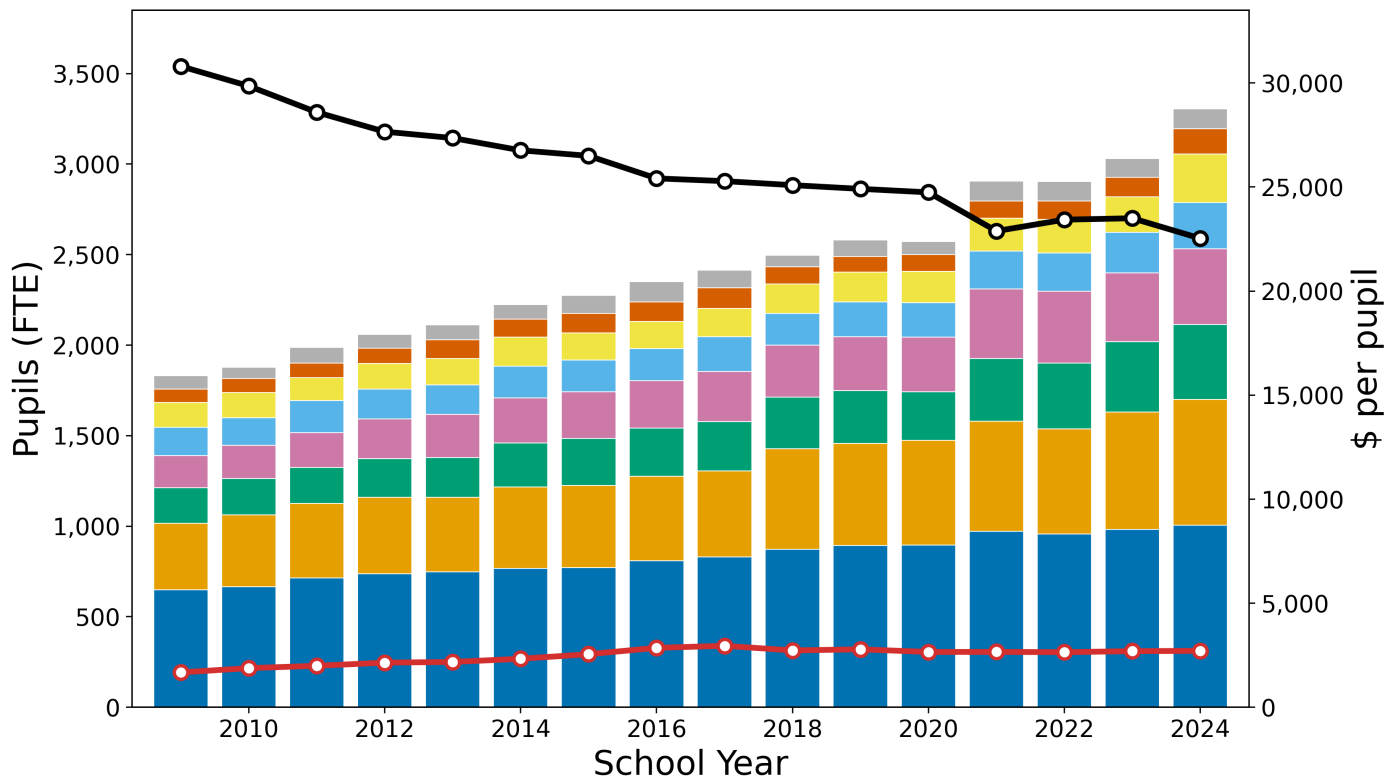

Code: v2025.09.21-ALPS-18

2019 PPE 2024 increase from 2019 2024 decrease from 2019 Enrollment change (FTE) 2019→2024

ALPS PK-12: Expenditures Per Pupil vs Enrollment

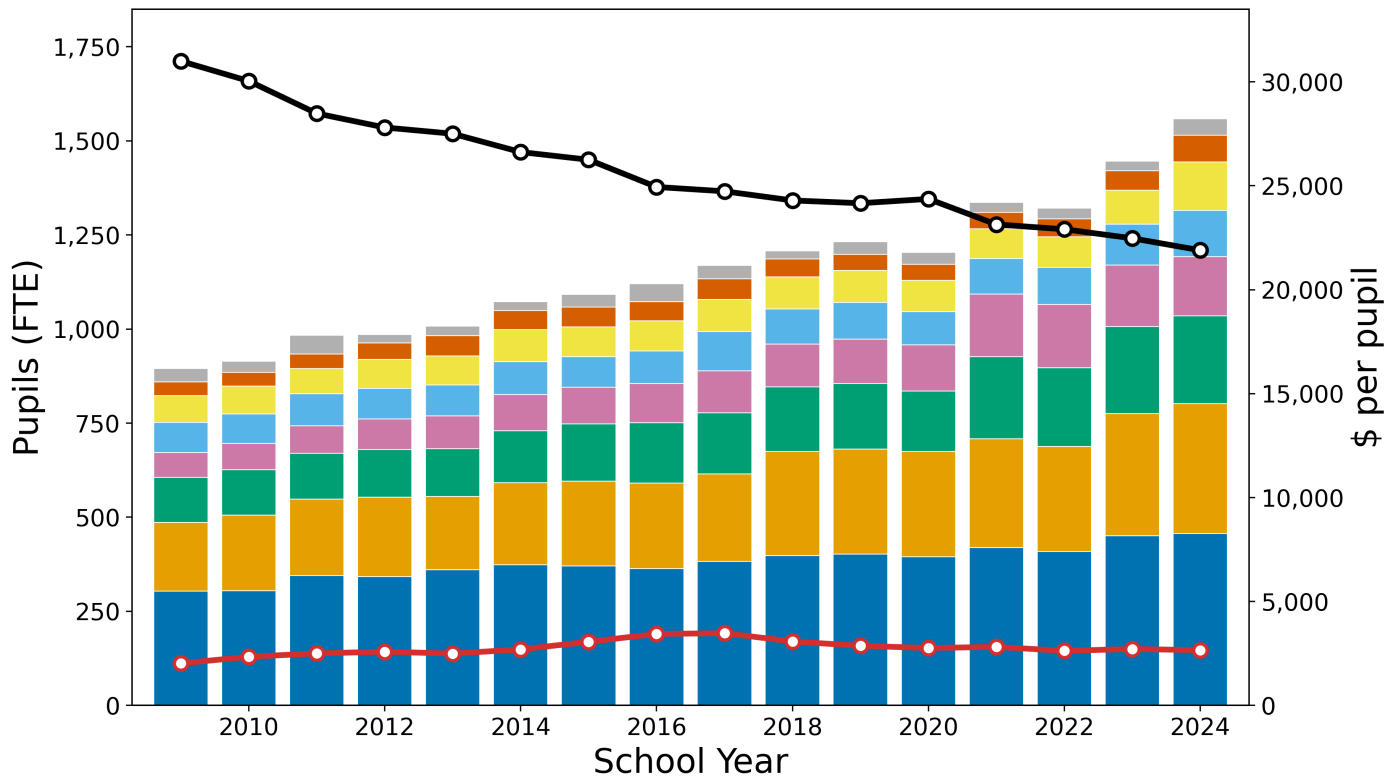

Stacked per-pupil expenditures by category; black/red lines show in-/out-of-district FTE trend (ALPS uses its own FTE scale).

Appendix B. Calculations & Data Transformations

How source data becomes charts & tables

- Canonical categories: raw DESE subcategories are mapped to eight canonical buckets; columns are stacked bottom→top in a fixed order.
- Virtual district (ALPS PK-12): weighted averages of Amherst, Leverett, Pelham, Shutesbury, and Amherst-Pelham using In-District FTE as weights per year and subcategory.
- Western MA aggregates: for ≤ 500 and > 500 groups, per-pupil values are FTE-weighted across member districts each year.
- PPE change bars: for each district, the bar shows PPE in the base year with a stacked segment to the latest; purple if latest $<$ base.
- Enrollment micro-areas: above each bar, a small area traces In-District FTE from base→latest; only endpoints are labeled.
- CAGR shading: each category's 5/10/15-year CAGR is compared to the corresponding Western baseline (same $\leq / > 500$ group). Cells are shaded when $|\Delta \text{CAGR}| \geq 2.0$ percentage points; intensity increases with distance.
- Totals: PPE totals are sums of canonical categories; CAGR totals shown are the mean of category CAGRs; FTE totals are computed from summed series.

Appendix C. Version Change Log

Current build: v2025.09.21-ALPS-18

- Legend rows span CAGR columns with red/green swatches; left explainer texts restored.
- LineSwatch width reduced to 30px to avoid label overlap.
