All Western MA Traditional Districts

Per-pupil expenditure overview: 2019 PPE (lighter) to 2024 PPE (darker segment)

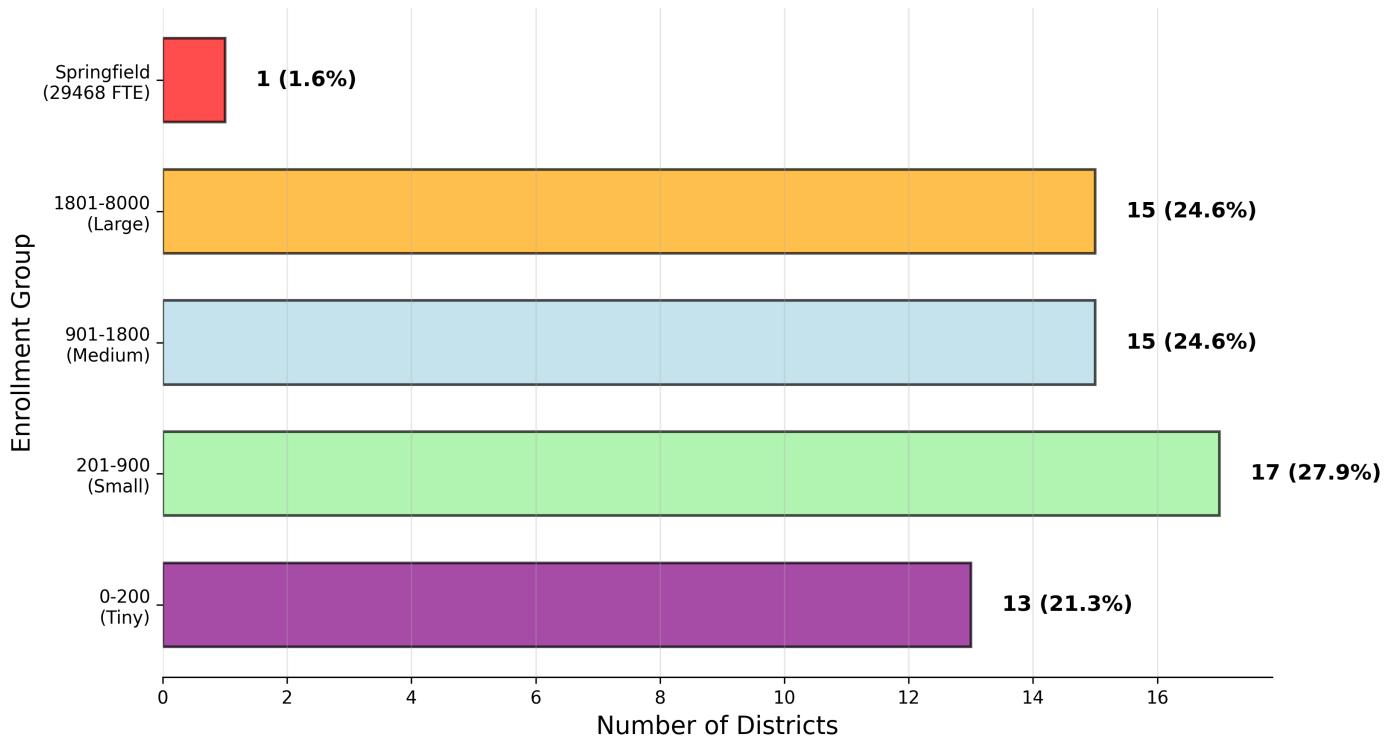

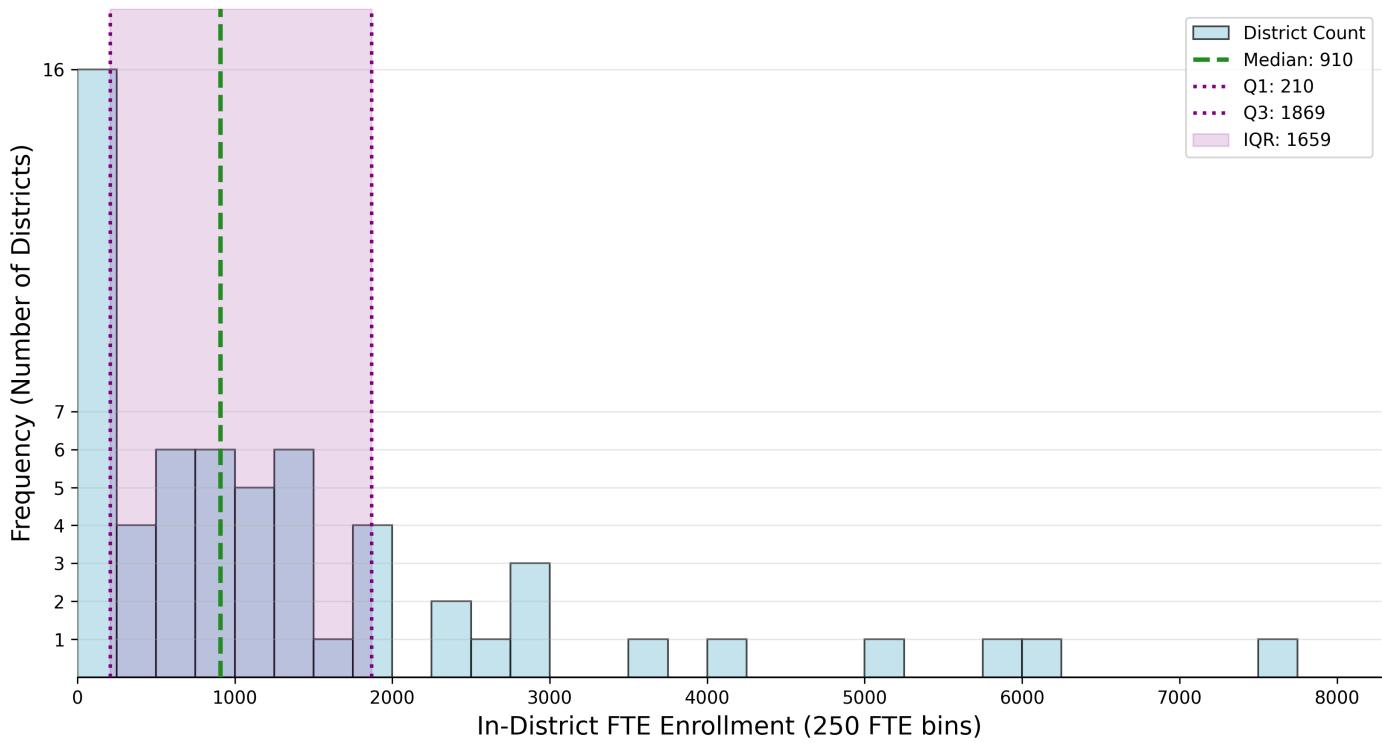

Each bar represents one district's per-pupil expenditures (PPE). Districts are sorted by 2024 PPE (lowest to highest).

Note: The following districts are omitted from this analysis: Chesterfield-Goshen (missing expenditure data), Hampshire (missing expenditure data), Southampton (missing expenditure data), Warwick (no enrollment data), Westhampton (missing expenditure data), Williamsburg (missing expenditure data).

All Western MA Traditional Districts

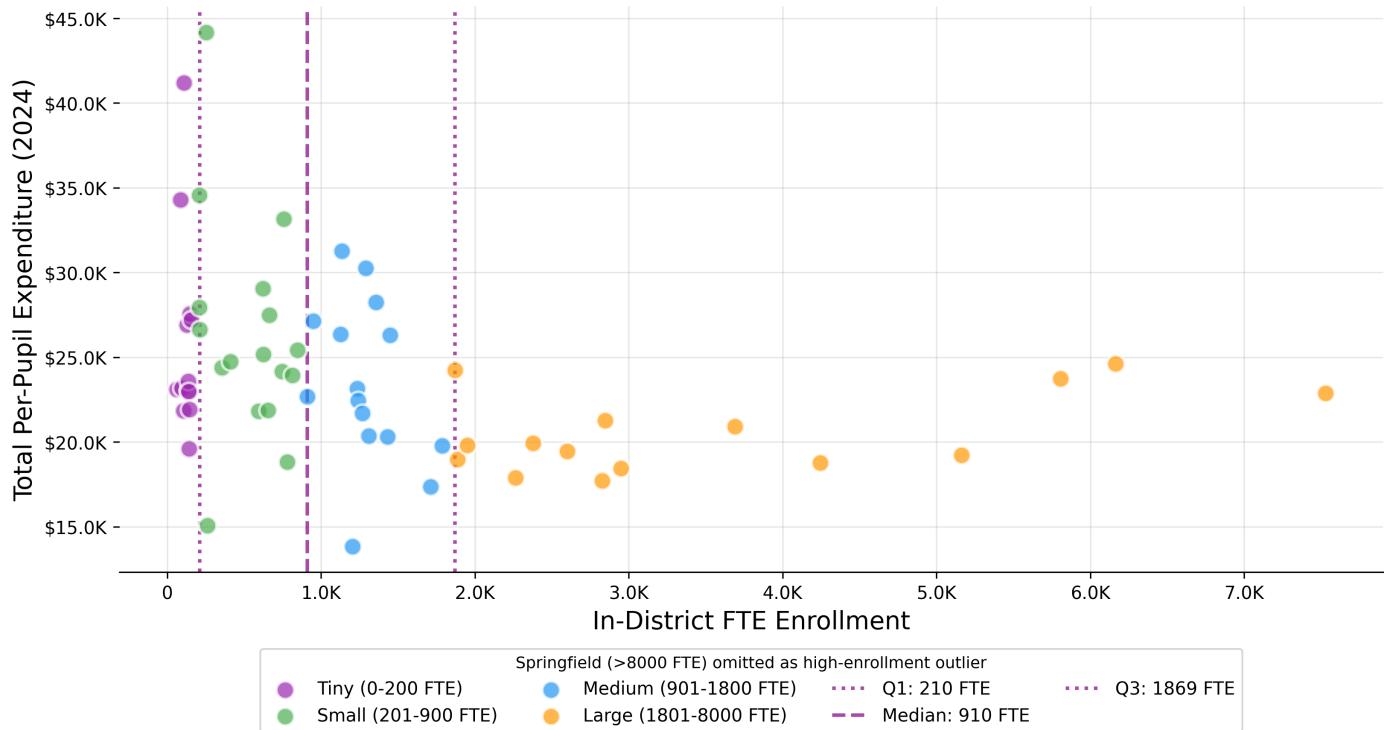

Enrollment distribution and proposed four-tier grouping

The histogram (top) shows right-skewed enrollment distribution using 250 FTE bins, with a long right tail and sparse districts at higher enrollments. Based on IQR analysis, districts are grouped into four enrollment-based cohorts (bottom): Small (201-900 FTE), Medium (901-1800 FTE), Large (1801-8000 FTE), and Springfield (>8000 FTE, statistical outlier). These cohorts enable meaningful comparisons between districts facing similar scale-related challenges in staffing, facilities, and programming.

Geographic map showing district locations and enrollment cohorts

Enrollment Cohorts

- | | |
|---------------------------------------|---------------------------------------|
| Tiny (0-200 FTE): 13 district(s) | Large (1801-8000 FTE): 15 district(s) |
| Small (201-900 FTE): 15 district(s) | Springfield: 1 district(s) |
| Small (201-900 FTE): 2 regional | Secondary regional (black border) |
| Medium (901-1800 FTE): 13 district(s) | |
| Medium (901-1800 FTE): 1 regional | U = Unified regional district |

v2025.10.06-MAPS

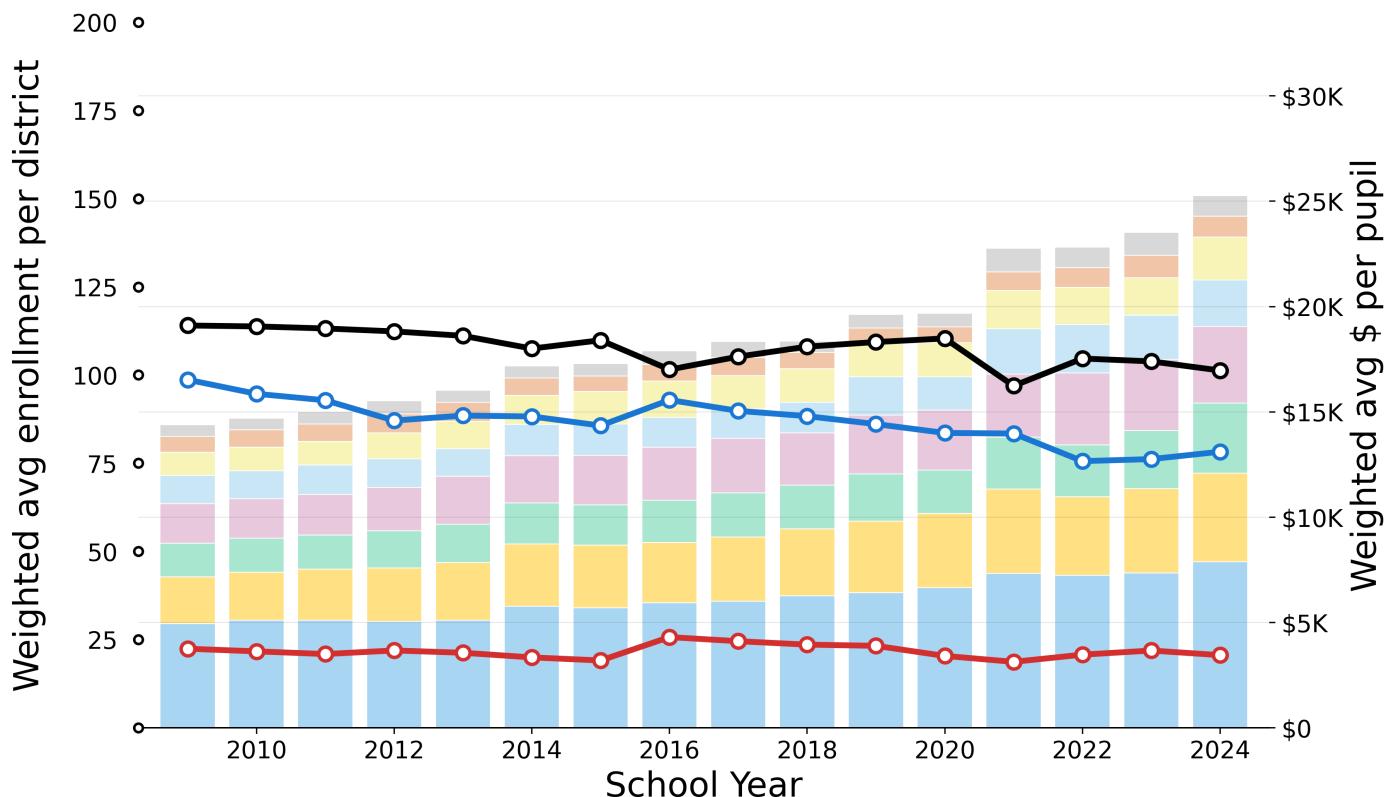

This map situates the districts previously shown in the charts—enrollment distributions, cohort groupings, and the relationship between enrollment and per-pupil expenditures—within their geographic context in Western Massachusetts.

Districts are shaded according to the enrollment cohort system introduced earlier: Tiny (purple), Small (green), Medium (blue), Large (orange).

Elementary and PK-12 unified districts appear as solid filled areas. Unified regional districts (marked with 'U') serve all grades PK-12 across multiple towns. Secondary regional districts are bounded by a thick black border with diagonal stripe patterns. Example: Frontier Regional (a Small district, green) shows white stripes over green elementary districts and green stripes over purple (Tiny) districts. This helps show the cohorts of both the regional district and the underlying elementary districts.

All Western MA Traditional Districts: Tiny (0-200 FTE)

Appendix B. Calculation Methodology

Data Sources

1. Data Sources

District Expenditures by Spending Category:

Source: Massachusetts Department of Elementary and Secondary Education (DESE)

Last updated: August 12, 2025

URL: <https://educationontocareer.data.mass.gov/Finance-and-Budget/District-Expenditures-by-Spending-Category/er3w-dtyi/>

This dataset provides detailed expenditure data by category for all Massachusetts school districts, including:

- Expenditures per pupil (EPP) by spending category
- Student enrollment (In-District FTE, Out-of-District FTE, Total FTE)
- Annual data from FY1993 to present

Chapter 70 District Profiles:

Source: Massachusetts Department of Elementary and Secondary Education (DESE)

URL: Various sources compiled in profile_DataC70 spreadsheet tab

From the Ch70 website:

"Chapter 70 District Profiles: The on-line Chapter 70 database shows, for each school district, yearly spending and state aid totals in comparison to the foundation budget. Trend data is available for each year going back to FY1993."

This dataset provides:

- Chapter 70 Aid (c70aid): State aid received by each district
- Required Net School Spending (rqnss2): Minimum spending required by state law
- Actual Net School Spending (actualNSS): Total district spending on education
- Foundation Enrollment (distfoundenro): District foundation enrollment used for Ch70 funding calculations

Regional Classifications:

Source: DESE district profiles and regional service mappings

- Districts classified as Western MA based on EOHHS regional designations
- School type classifications (Traditional, Regional, Charter, etc.)

Appendix B. Calculation Methodology (continued)

2. Per-Pupil Expenditure (PPE) Definition

Per-pupil expenditure (PPE) is reported in the End of Year Report (EOYR) for municipal and regional districts, and is calculated by in-district FTE.

Per the DESE's Researcher's Guide, section XV. Using financial data:

"The out-of-district total cannot be properly reported as a per-pupil expenditure because the cost of tuitions varies greatly depending on the reason for going out of district."

3. Compound Annual Growth Rate (CAGR)

CAGR measures the mean annual growth rate over a specified time period, assuming constant growth.

Formula: $\text{CAGR} = (\text{End_Value} / \text{Start_Value})^{(1 / \text{Years})} - 1$

Example: If expenditures grow from \$10,000 to \$12,000 over 5 years:

$$\text{CAGR} = (\$12,000 / \$10,000)^{(1/5)} - 1 = 1.2^{0.2} - 1 = 0.0371 = 3.71\% \text{ per year}$$

Note: CAGR requires positive values at both endpoints and is undefined if data is missing.

4. Enrollment-Based Peer Groups

Districts are grouped by total in-district FTE enrollment into five cohorts (based on IQR analysis) for meaningful peer comparison:

Tiny (0-200 FTE): 17 districts (Cohort 1: below Q1)

Member districts: Conway, Erving, Farmington River Reg, Florida, Hancock, Hawlemont, Leverett, New Salem-Wendell, Pelham, Petersham, Richmond, Rowe, Savoy, Shutesbury, Sunderland, and 2 others

Small (201-900 FTE): 16 districts (Cohort 2: Q1 to median)

Member districts: Clarksburg, Deerfield, Frontier, Gateway, Gill-Montague, Granby, Hadley, Hatfield, Lee, Lenox, Mohawk Trail, Monson, Orange, Pioneer Valley, Ralph C Mahar, and 1 others

Medium (901-1800 FTE): 15 districts (Cohort 3: median to Q3)

Member districts: Amherst, Amherst-Pelham, Athol-Royalston, Berkshire Hills, Central Berkshire, Easthampton, Greater Commonwealth Virtual District, Greenfield, Hoosac Valley Regional, Mount Greylock, North Adams, Palmer, South Hadley, Southwick-Tolland-Granville Regional School District, Ware

Large (1801-8000 FTE): 12 districts (Cohort 4: above Q3)

Member districts: Agawam, Belchertown, Chicopee, East Longmeadow, Hampden-Wilbraham, Holyoke, Longmeadow, Ludlow, Northampton, Pittsfield, West Springfield, Westfield

Springfield (>8000 FTE): 1 district (Cohort 5: statistical outlier, analyzed separately)

Member districts: Springfield

Weighted EPP Formula (for aggregate calculations):

For each category and year: $\text{Weighted_EPP} = \sum(\text{District_EPP} \times \text{District_In-District_FTE}) / \sum(\text{District_In-District_FTE})$

Example: District A spends \$5,000/pupil (500 students), District B spends \$6,000/pupil (300 students)

Weighted average = $(\$5,000 \times 500 + \$6,000 \times 300) / (500 + 300) = \$5,375/\text{pupil}$

Enrollment Calculation: For each series (In-District FTE, Out-of-District FTE) and year: Sum across all member districts in the enrollment group.

Appendix B. Calculation Methodology (continued)

5. Red/Green Shading Logic (District Comparison Tables)

District pages include tables comparing each district's per-pupil expenditures (PPE) and growth rates (CAGR) to their enrollment-based peer group aggregate (Small, Medium, Large, or Springfield).

Two independent tests determine shading:

Test 1 - Dollar Amount (2024 \$/pupil column):

Compares the district's 2024 PPE to the baseline's 2024 PPE using relative difference: (District – Baseline) / Baseline

- **Red shading:** District spending is $\geq 2.0\%$ higher than baseline
- **Green shading:** District spending is $\geq 2.0\%$ lower than baseline
- **No shading:** Difference is less than 2.0%

Test 2 - CAGR (5y, 10y, 15y columns):

Compares the district's CAGR to the baseline's CAGR using absolute percentage point difference: District_CAGR – Baseline_CAGR

- **Red shading:** District CAGR is ≥ 2.0 percentage points higher than baseline
- **Green shading:** District CAGR is ≥ 2.0 percentage points lower than baseline
- **No shading:** Difference is less than 2.0 percentage points

Key insight: The tests are independent. A red 2024 \$/pupil with unshaded CAGRs typically means:

- The district started at a higher baseline 15 years ago, AND
- The district has been growing at roughly the same rate as peers
- Therefore it remains higher in absolute dollars but isn't growing faster

Appendix B. Calculation Methodology (continued)

6. Chapter 70 Aid and Net School Spending (NSS) Calculations

Chapter 70 is Massachusetts' primary state aid program for K-12 education. Net School Spending (NSS) is the total amount a district spends on education from local and state sources.

Data Sources:

- **Chapter 70 Aid (c70aid):** State aid received by the district (DESE profile_DataC70 sheet)
- **Required NSS (rqnss2):** Minimum spending required by state law, adjusted (DESE profile_DataC70 sheet)
- **Actual NSS (actualNSS):** Total district spending on education (DESE profile_DataC70 sheet)

Important Note:

NSS/Ch70 values are reported in **absolute dollars**, NOT per-pupil. Unlike PPE (which divides by in-district FTE), NSS/Ch70 values represent total district funding amounts.

Stacked Components (bottom to top in plots):

1. **Ch70 Aid (\$):** c70aid
 - Green bar in plots • State funding received by district
2. **Req NSS (adj) (\$):** max(0, rqnss2 – c70aid)
 - Amber bar in plots • Required local contribution (after subtracting Ch70)
 - Uses max(0, ...) to handle rare cases where Ch70 > Required NSS
3. **Actual NSS (adj) (\$):** actualNSS – rqnss2
 - Purple bar in plots • Spending above minimum requirement
 - Represents discretionary local spending beyond state mandates

Total NSS (\$): Sum of all three components = actualNSS

Example Calculation (Amherst, FY2024):

- Ch70 Aid: \$6,791,000
- Required NSS: \$18,859,000; Req NSS (adj): \$18,859,000 – \$6,791,000 = \$12,068,000
- Actual NSS: \$31,511,000; Actual NSS (adj): \$31,511,000 – \$18,859,000 = \$12,652,000
- Total NSS: \$6,791,000 + \$12,068,000 + \$12,652,000 = \$31,511,000

Aggregate Calculation:

For aggregate enrollment groups (Small, Medium, Large, Springfield), sum dollar amounts across all member districts by year:

- Ch70 Aid (\$) = $\Sigma(\text{District_Ch70})$
- Same calculation method for Req NSS (adj) and Actual NSS (adj)

Shading:

NSS/Ch70 comparison tables use the same red/green shading logic as PPE tables (2% dollar threshold, 2pp CAGR threshold).
