Roof Replacement ARP Project

Amherst Regional
Middle School

Tennis Courts

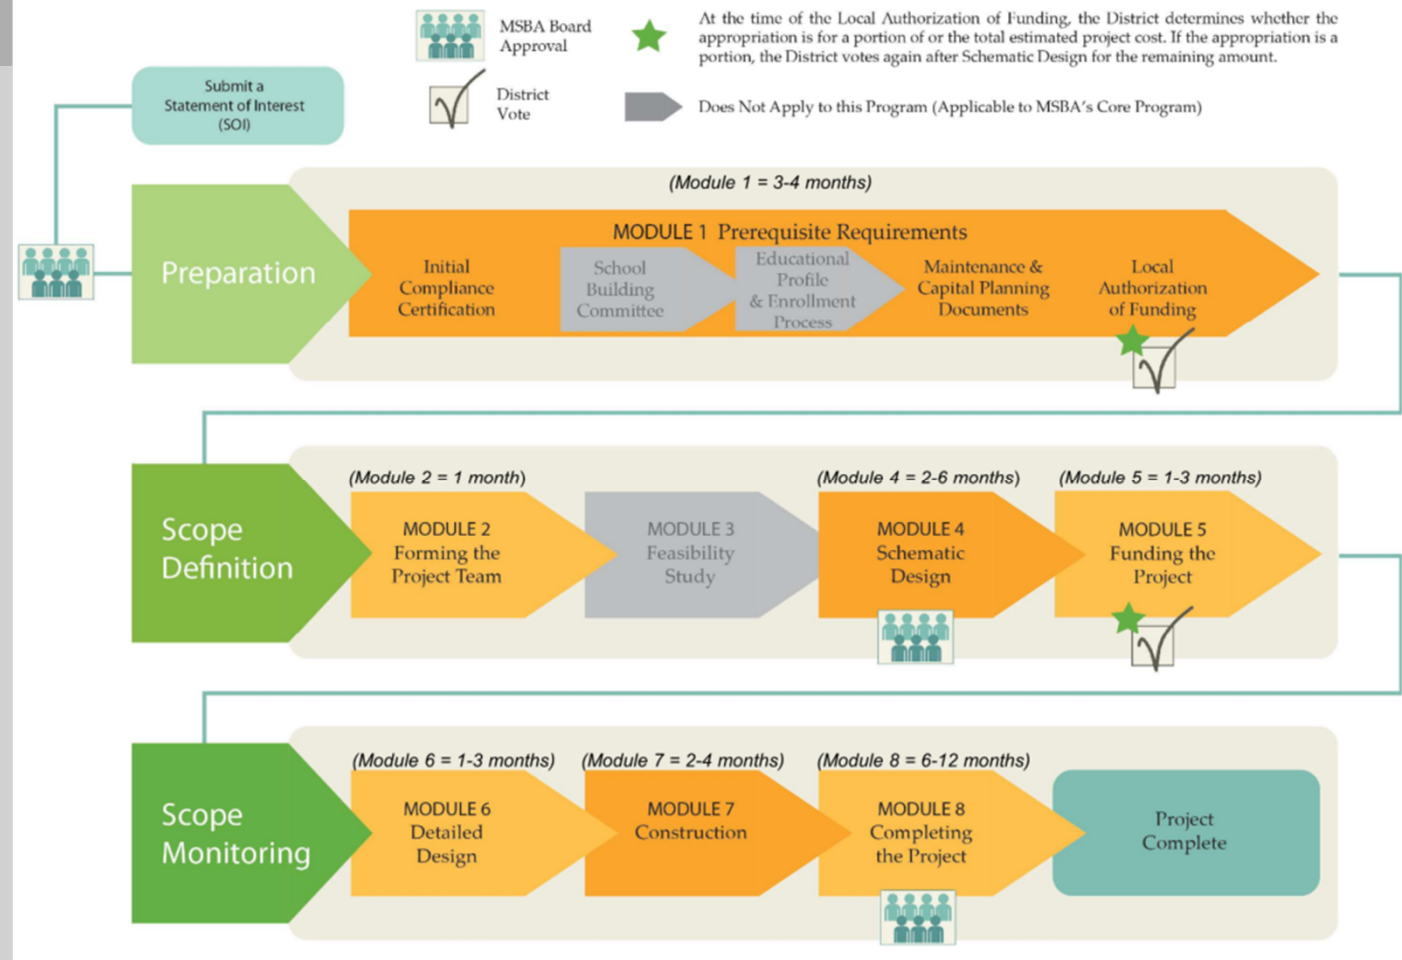

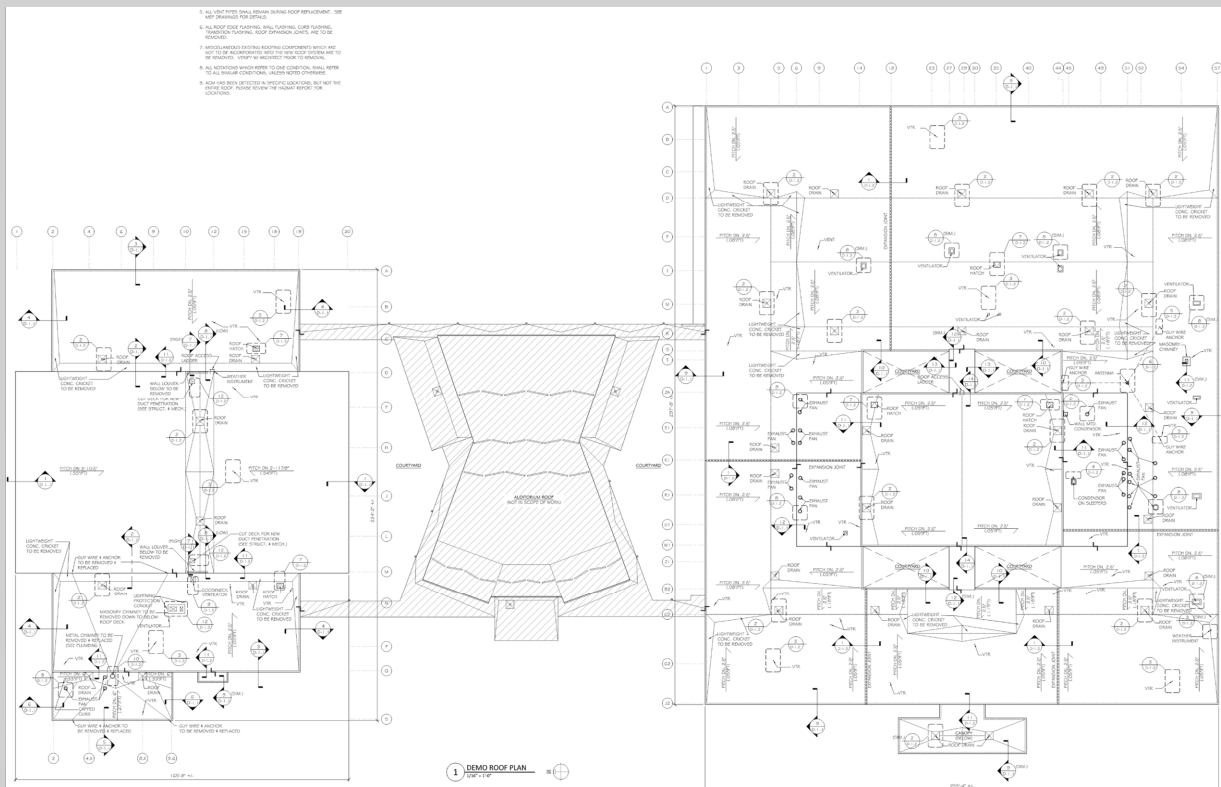

Meet the Team

- **District**
 - Michael Gallo O'Connell
 - Shannon Bernacchia
 - Adam Felton
 - James Battistoni
- **Vertex OPM**
 - Jon Lemieux
 - Emily Sarazin
 - Meredith Borden
- **Turowski2 Architect**
 - Peter Turowski
 - Douglas Bliven

MSBA Process

Demo – Existing Conditions

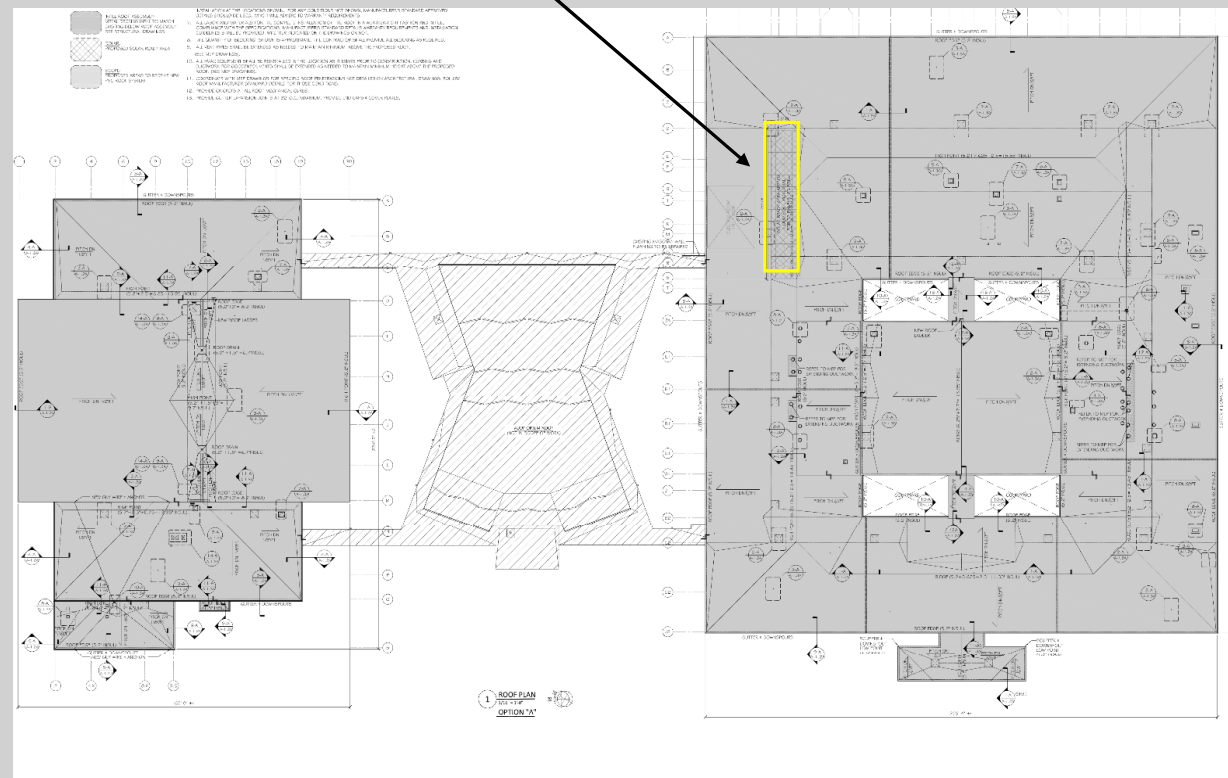

- Identified capacity for solar
 - Orientation
 - Structure
- Identified hazardous material.
- Assessed all documented previous work.
- Assessed existing conditions through visual inspection.
- More than 25 years old
 - *Except Auditorium*
- Out of warranty
- Active leaks present throughout and chronic interior drain problems
- Does not meet current energy code
- Roof top equipment original
- Somer residual hazmat from previous work

Proposed Roof Plan

Proposed work:

- Replace all roof areas over 25 years old
- Change drainage from internal to perimeter gutter system
- Prepare area of roof for future solar
- Replace all rooftop equipment (vents, fans, etc.)
- Abate hazmat

Solar Ready Area

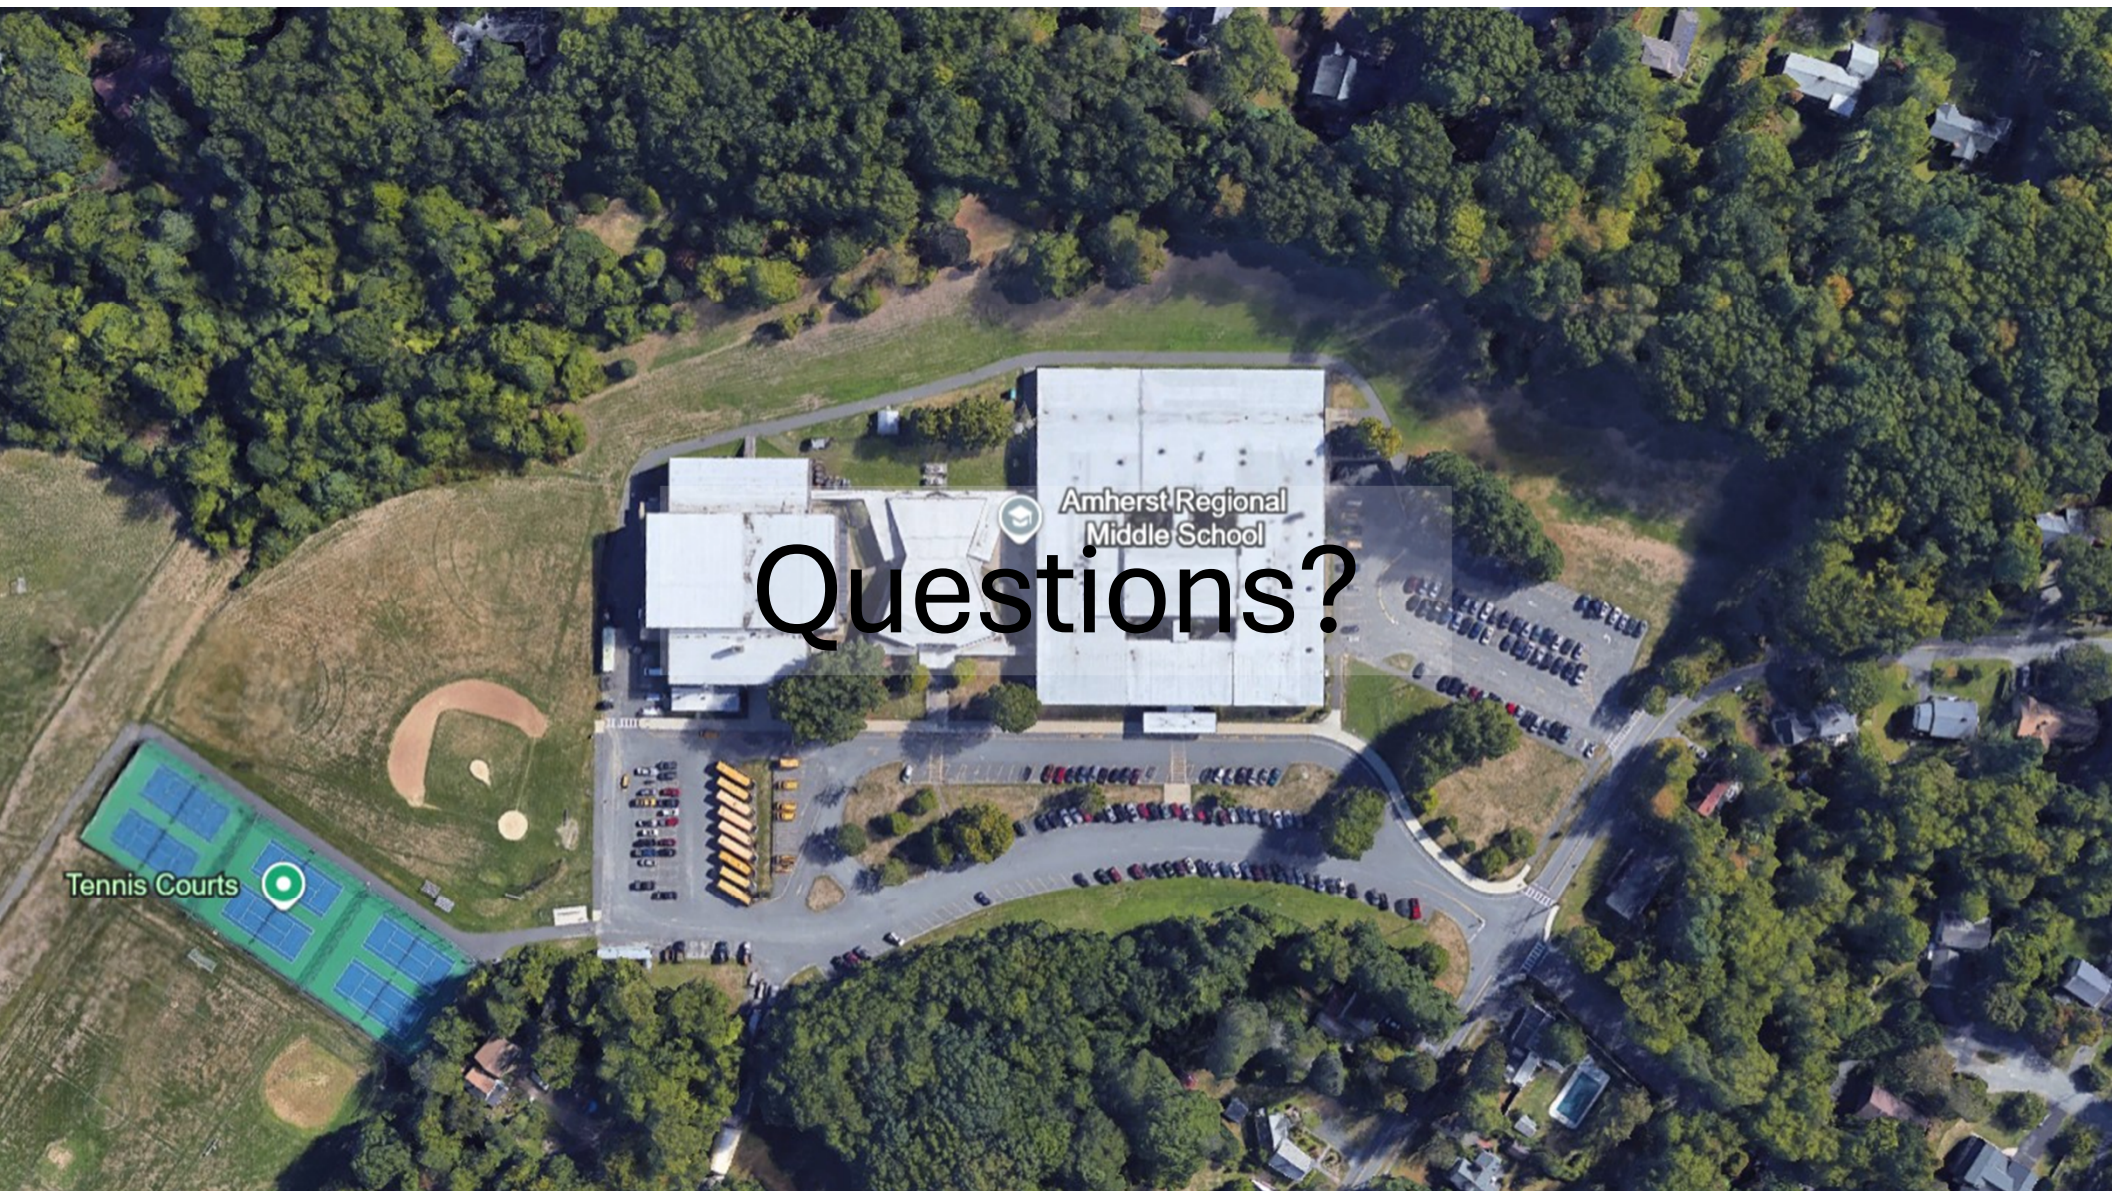

Cost Summary

- Construction Cost - \$8,470,479
 - Materials, Labor, Oversight
- Soft Cost – \$1,553,537
 - Designer, OPM, Printing, Advertising, Bidding, etc
