Robert V. Antonucci
Commissioner

July, 1993

I am pleased to issue our annual publication, 1991-1992 Per Pupil Expenditures.

All data used to calculate these expenditures were taken from the 1991-1992 Pupil-Financial End of Year Report submitted to the Department of Education by each city, town and regional school district in September 1992.

Besides showing comparative costs for all of the state's public school districts, the booklet also describes the various educational programs and the components of these comparative statistics.

If your have questions about the booklet, please contact:

Department of Education
Information and Outreach

Sincerely,

Robert V. Antonucci

Robert V. Antonucci
Commissioner of Education

Introduction

The 1991-92 per pupil expenditures have been calculated from information in each district's End of Year Pupil and Financial Report. Districts report pupil memberships and expenditures in any of the four programs offered to school children. Within each program, there are further categories of instruction. Per pupil expenditures are published for each of these.

Massachusetts has 439 school districts and the Department of Education assigns a three-digit descriptive to each one.

Codes 1 to 351 denote the cities and towns in the Commonwealth. Of these 275 operate some instructional programs. The other seventy-six are either members of fully-organized regional school districts or make agreements to send local pupils to schools in neighboring districts.

There are three independent vocational districts (400 series) under the control of boards of trustees in three cities.

Codes 600-780 are assigned to the fifty-six regional academic districts which instruct children from two or more towns. Some of these districts operate programs in all grades and others operate only high schools.

There are twenty-six regional vocational districts that provide occupational instruction to high school pupils from two or more cities and towns. Their codes are contained in the 800 series.

Three counties operate agricultural schools for secondary pupils (900 series).

Current Operating Expenditures

Per pupil expenditures equal a district's current operating costs divided by the average pupil membership. The following categories of expenditures are included in current operating costs:

Administration
Instructional Supervision
Principals
Teaching
Textbooks
Libraries, Audio-Visual & Education TV
Guidance
Psychologists
Attendance
Transportation
Health
Food
Athletics
Student Body Activities
Plant Maintenance
Fixed Charges

These costs are paid from funds appropriated by the local districts from tax revenues and state aid.

Full Time Equivalency Membership

All pupils are reported on a full-time equivalency basis. This basis takes into account two factors: 1)pupils are reported on an average basis and a child who was enrolled in school for only half the year would be reported as 0.5; 2)pupils are reported in each of the school programs where they are instructed and a child who spends half the school day in the regular program and the other half in the special needs program would be reported as 0.5 in both.

When expenditures and pupils are reported in very specific categories, a special needs pre-school program for example, the calculated per pupil expenditure can be quite high because the pupils are reported on a full-time equivalency basis. In this example, a district may spend $1,000 for one child's program. If the child spends 10% of the school day in this program, his full-time equivalency membership would be 0.1. The per pupil expenditure would thus equal $1,000 divided by 0.1 or $10,000. These high average costs usually denote a school program with a very low membership.

Instructional Programs

Regular Day Program

In most districts, pupils are concentrated in the regular day program where they receive a general course of instruction. Average expenditures are reported for each district operating this program. Also published are per pupil costs for the kindergarten, elementary, junior or middle school and senior high school programs. Because of the different organizational structures, the grades in each district's program levels are printed next to the per-pupil expenditure to make comparisons easier.

Special Needs Program

All districts must provide special instructional services to pupils whose educational needs cannot be satisfied in a regular day program. Pupils and expenditures fall into the following eight "program prototypes."

502.1 Modified In this prototype, children receive special instruction in their regular classroom.

502.2 Integrated Some children leave the regular classroom for their special instruction. In this prototype, the children receive these services for no more than 25% of the school week.

502.3 25%-60% Like the integrated prototype, this program requires children with special needs to spend part of the school week (from 25%-60%) outside the regular classroom.

502.4 Substantially Separate This prototype is reserved for special need pupils who must spend almost the whole school week in a classroom taught by a special teacher.

502.5 Day School Certain children attend private day schools for special needs pupils and their home school district is responsible for paying the tuition.

502.6 Residential This prototype describes private special needs schools where children live and attend class. As in the day school prototype, the home school districts pay the tuition.

502.7 Home or Hospital When pupils are sick at home or in the hospital, the school district assigns a tutor to give them private instruction.

502.8 Pre-School This prototype is designed for three-and four-year-olds with special needs.

In addition to the eight prototypes, there are two other categories of costs.

Screening describes the identification of children whose needs should be evaluated.

Evaluation is the assessment of a child's special needs and the development of an individual educational plan in one of the eight program prototypes.

Transitional Bilingual Program
School districts must provide programs for children who do not understand English well enough to perform in the regular classroom. These pupils are taught in their native language in all the regular subjects and receive extra instruction in English.

Per pupil expenditures and the grades in operation are published for each district with a bilingual program.

Occupational Day Program

This course of instruction prepares high school pupils for employment in certain occupations. These instructional programs can be offered in either a regular or vocational high school. Many cities and towns belong to regional vocational districts and their local pupils attend occupational programs in these schools.

Per pupil expenditures are reported for nine recognized occupational programs: agriculture; distributive education; technical occupations; cosmetology; health occupations; occupational consumer and homemaking; construction occupations; repair and maintenance; and precision production.

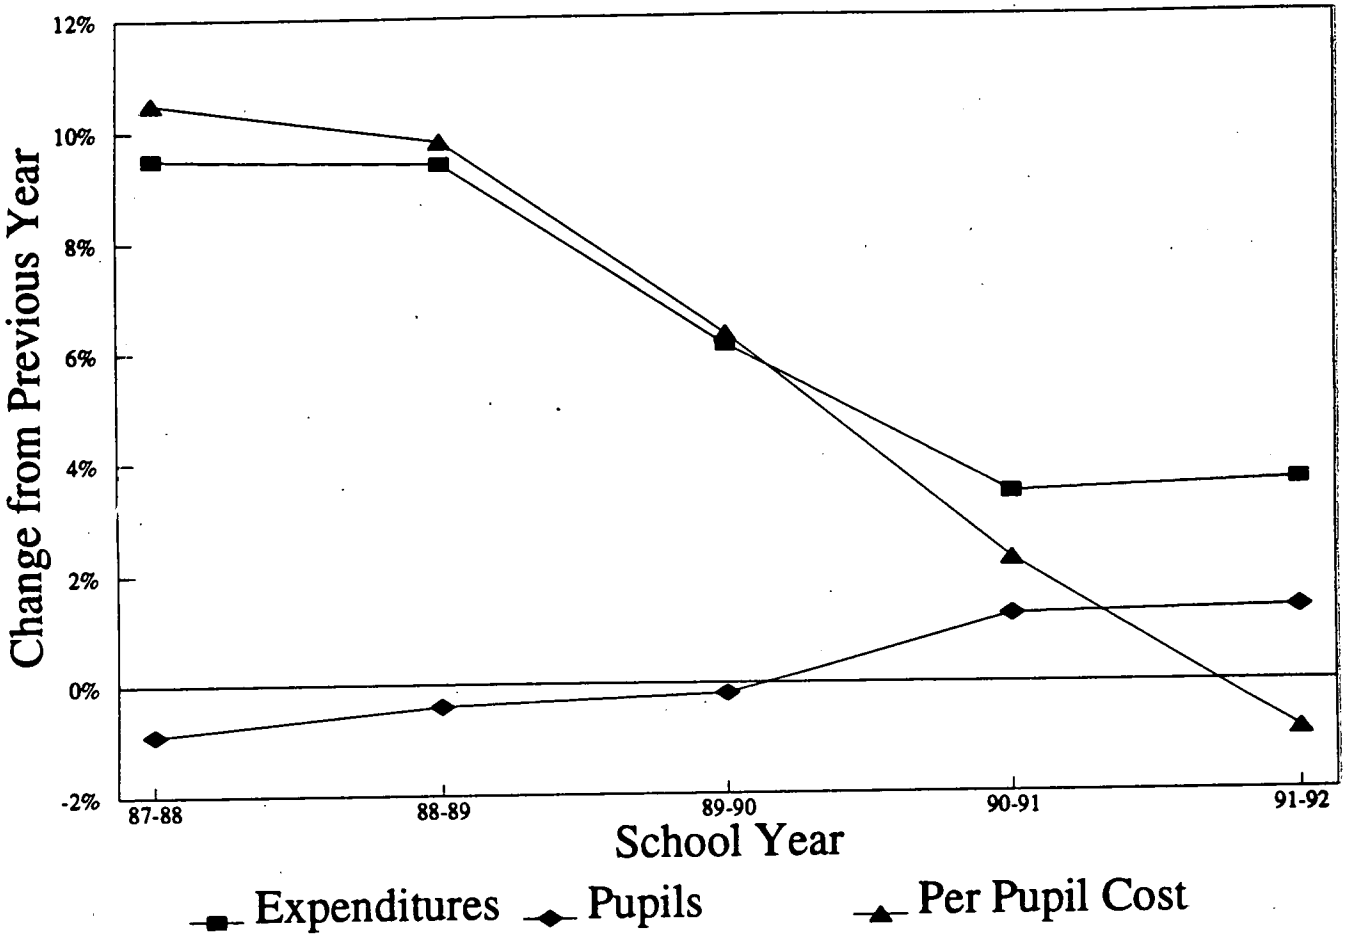

Integrated Per Pupil Cost

Because of the variety of the school district organizations, it is often difficult to compare per-pupil expenditures. In order to standardize costs among districts, the Department of Education calculates an "integrated per pupil costs" for each of the 351 cities and towns in Massachusetts. These figures represent the average cost of education for all children residing in a community, regardless of the district where they attend school. In addition to a local district's current operating cost, a portion of a member regional school district's cost are included in the local district's total expenditures. Tuition paid to other schools is also part of the integrated cost.

The total integrated cost is divided by a town's "net average membership." This figure is the sum of pupils in local schools, other public school districts and in special needs day and residential schools.

CHART I - ANNUAL RATES OF CHANGE

FIVE YEAR HISTORY

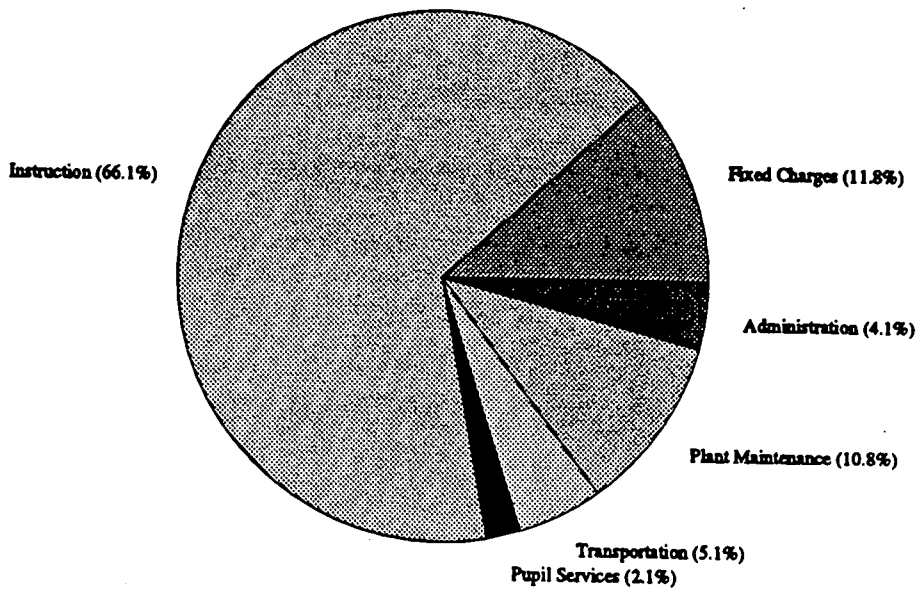

Educational expenditures increased 3.6% in fiscal year 1992 while pupil enrollments rose 1.3%. For the first time in this five year period, the state average per pupil has decreased.

SCHOOL YEAR	COSTS	ANNUAL % CHANGE	PUPILS	ANNUAL % CHANGE	PER PUPIL COST	ANNUAL % CHANGE
87-88	3,534,984,874	9.5%	830,057.3	-0.9%	4,259	10.5%
88-89	3,865,617,866	9.4%	826,473.0	-0.4%	4,677	9.8%
89-90	4,100,595,530	6.1%	824,773.6	-0.2%	4,972	6.3%
90-91	4,239,581,293	3.4%	834,304.1	1.2%	5,082	2.2%
91-92	4,254,852,026	3.6%	845,230.6	1.3%	5,034	-0.9%

CHART II - COMPOSITION OF SCHOOL COSTS

EXPENDITURES BY FUNCTION

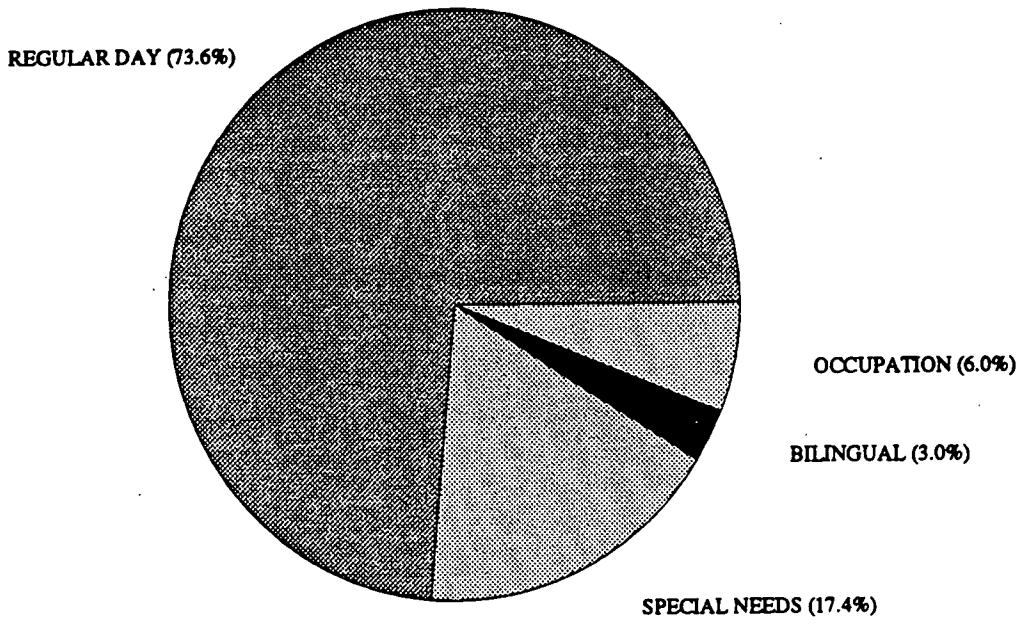

The 1991-1992 current operating costs were distributed among the expenditure categories in the following way:

EXPENDITURE FUNCTION	% SHARE OF TOTAL COSTS
ADMINISTRATION	**4.1%**
INSTRUCTION (includes Supervision, Principals, Teaching, Textbooks, Libraries, Guidance, Psychologists)	**66.1%**
PUPIL SERVICES (includes Attendance, Health, Food, Athletics, Student Body Activities)	**2.1%**
TRANSPORTATION	**5.1%**
PLANT MAINTENANCE	**10.8%**
FIXED CHARGES (includes Employee Benefits, Insurance, Rentals, Short Term Interest)	**11.8%**

CHART III - DISTRIBUTION OF COSTS

AMONG PROGRAMS

In 1991-1992, total current operating costs were distributed to the four programs according to these percentages:

PROGRAM	% SHARE OF TOTAL COSTS
REGULAR DAY	73.6%
SPECIAL NEEDS	17.4%
BILINGUAL	3.0%
OCCUPATIONAL DAY	6.0%

CHART IV - DISTRIBUTION OF PER PUPIL EXPENDITURES

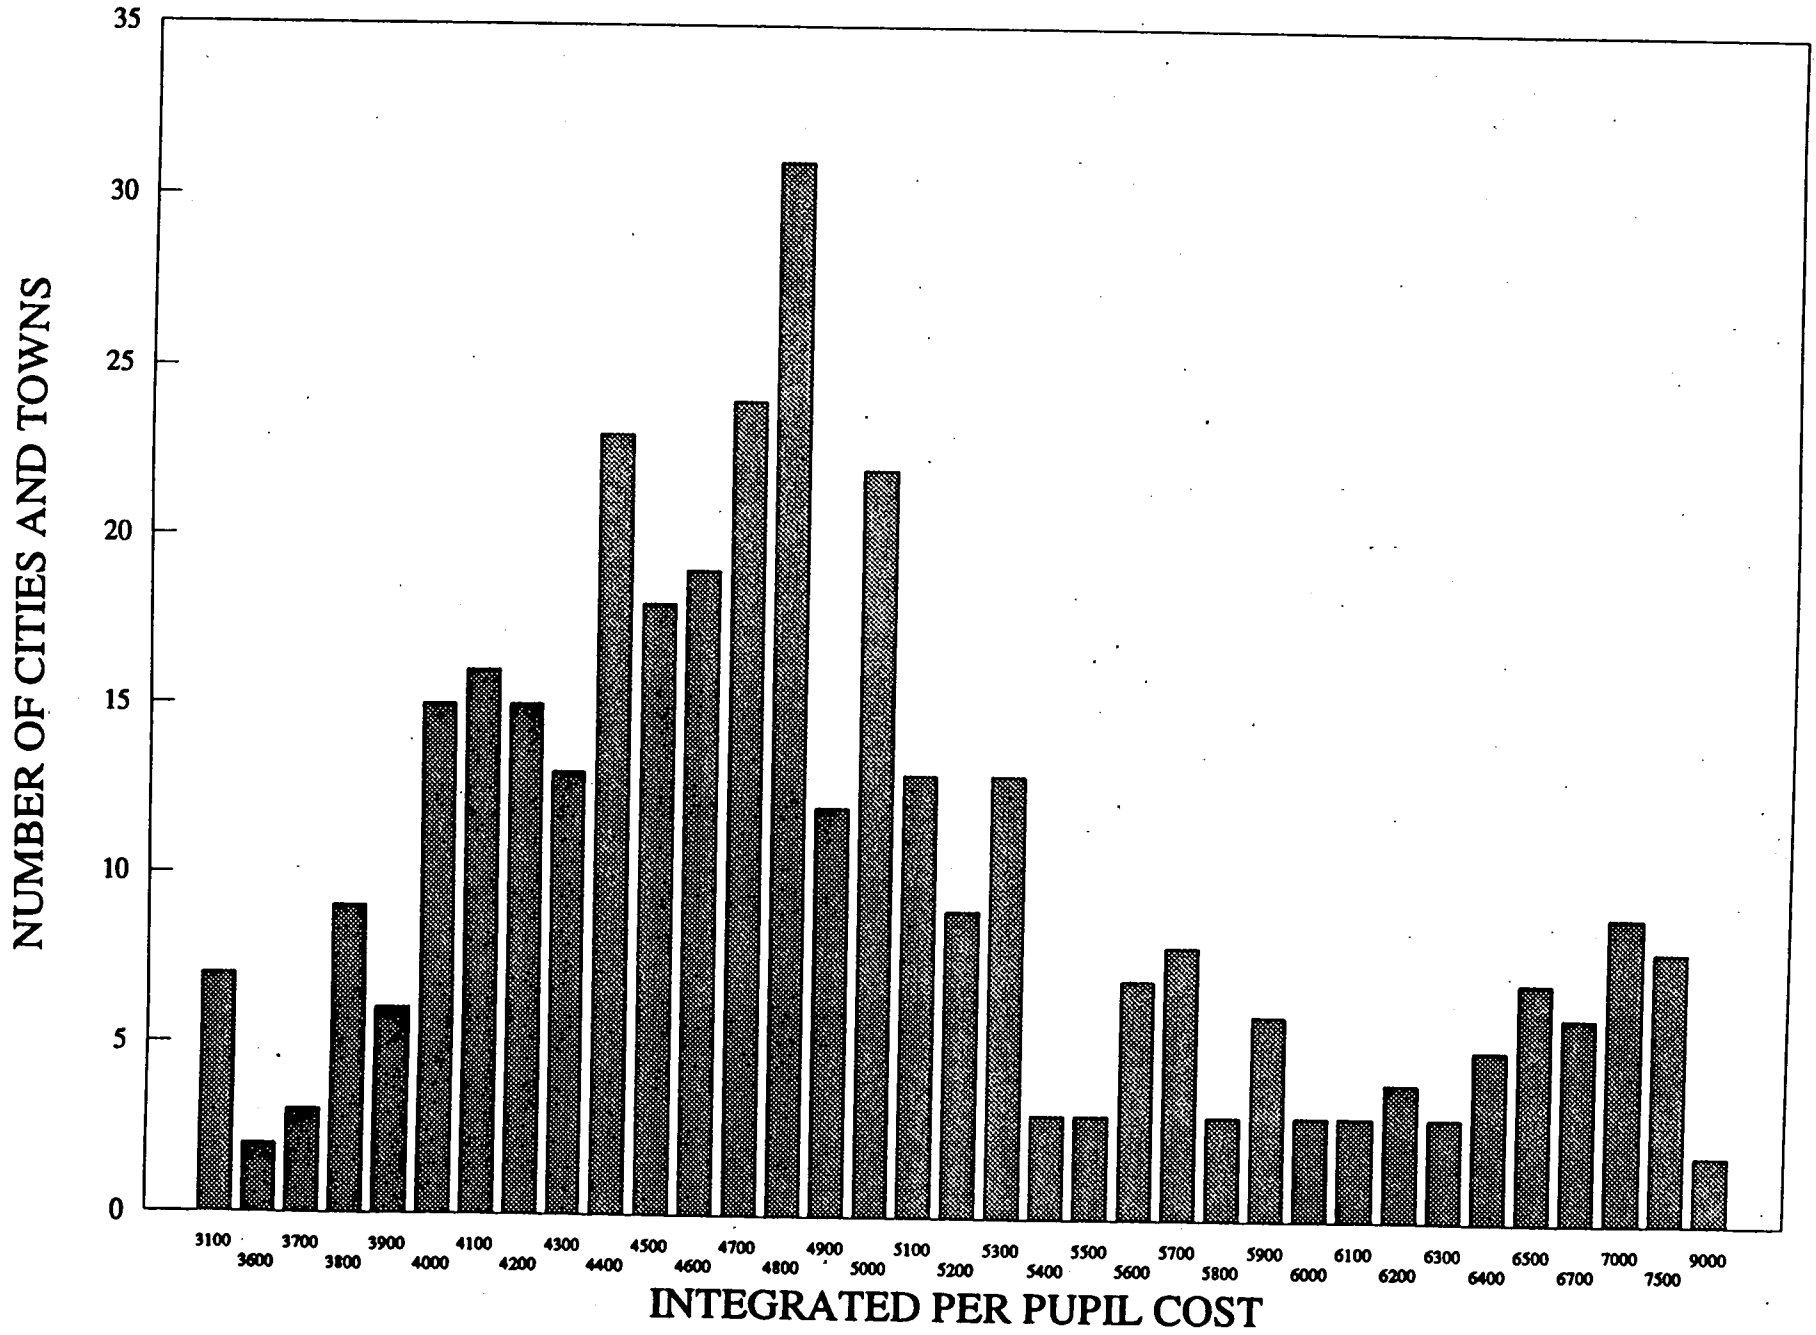

Chart IV - Frequency Distribution of Per Pupil Expenditures

The average integrated per pupil cost for 350 of the 351 cities and towns is $5034. The median is $4,816. Chart IV shows the number of communities at each level of of per pupil expenditure. One very small district is omitted.
