Robert V. Antonucci
Commissioner

December, 1995

I am pleased to issue our annual publication 1993-1994 Per Pupil Expenditures.

All data used to calculate these expenditures were taken from the 1993-1994 Pupil-Financial End of Year Report submitted to the Department of Education by each city, town and regional school district in September, 1994. In order to ensure the greatest degree of accuracy of these reports, school districts were allowed until June 1, 1995 to submit corrections to their spending and enrollment figures.

Besides showing comparative costs for all of the state's public school districts, the booklet also describes the various educational programs and the components of these comparative statistics. Because this is the first year of expenditure reporting under Education Reform, integrated operating costs are compared to the fiscal year 1993 integrated operating costs. This data shows an increase in pupil spending under Education Reform by over 4.2%.

The fiscal year 1995 expenditure report will also include comparisons to the foundation budget spending categories.

If you have any questions about the booklet, please contact:

INTRODUCTION

The 1993-1994 per pupil expenditures have been calculated from information in each district's End of Year Pupil and Financial Report. Districts report pupil memberships and expenditures in any of the regular, special, bilingual and occupational education programs offered to school children. Within each of these four programs, per pupil expenditures are further categorized by grade level, prototype or program.

OPERATING COSTS

Per pupil expenditures are computed by dividing a district's operating costs by the average pupil membership. The following categories of expenditures are included in operating costs:

Administration	Libraries, Audio-Visual & Ed TV
Athletics	Plant Maintenance
Attendance	Principals
Fixed Charges	Psychologists
Food	Student Body Activities
Guidance	Teaching
Health	Textbooks
Instructional Supervision	Transportation

Operating costs are paid from funds appropriated by the local districts from tax revenues and state aid.

FULL TIME EQUIVALENCY (FTE) MEMBERSHIP

All pupils are reported on a full-time equivalency basis (fte) which takes into account two factors:

(1) pupils are reported on an average basis, e.g. a child who was enrolled in school for only half the year would be reported as 0.5 fte;
(2) pupils are reported in each of the school programs where they are taught, e.g. a child who spends half the school day in the regular program and the other half in the special needs program would be reported as 0.5 fte in both.

When expenditures and pupils are reported in specific categories, the calculated per pupil expenditure can be quite high because the pupils are reported on a full-time equivalency basis. For example for a special needs pre-school program, a district may report $1,000 for one child's program. If the district reports that this child spends 10% of the school day in this program, the child's full-time equivalency membership would be 0.10 To compute the per pupil expenditure, the Department of Education divides the total costs by the total fte membership. In this example, the total cost of $1,000 would be divided by the fte membership of 0.1 (10%). The result would be $10,000. Such high average costs usually denotes a specific school program with a very low membership.

SCHOOL DISTRICT CODES

The Department of Education assigns a three digit descriptive to each of the 437 school districts in Massachusetts as follows:

Codes 1 to 351 are assigned to cities and towns in the Commonwealth. Of these, 264 operate some instructional program, while eighty-seven are either members of fully-organized regional school districts or make agreements to send local pupils to schools in neighboring districts.

Codes in the 400 series are assigned to independent districts under the control of boards of trustees.

Codes in the 600 and 700 series are assigned to the fifty-five regional academic districts which instruct children from two or more towns. Some of these districts operate programs in all grades and others operate only high schools.

Codes in the 800 series are assigned to the twenty-six regional vocational districts which provide occupational instruction to high school pupils from two or more cities and towns.

Codes in the 900 series are assigned to agricultural schools for secondary pupils operated by three counties.

COMMONWEALTH OF MASSACHUSETTS
DEPARTMENT OF EDUCATION
SCHOOL FINANCE SERVICES
1993-1994 PER PUPIL EXPENDITURES
INTEGRATED OPERATING COST

Because of the variety of the school district organizations, it is often difficult to compare per-pupil expenditures. In order to standardize costs among districts, the Department of Education calculates an "integrated per pupil costs" for each of the 351 cities and towns in Massachusetts. These figures represent the average cost of education for all children residing in a community, regardless of the district where they attend school. In addition to a local district's current operating cost, a portion of a member regional school district's cost are included in the local district's total expenditures. Tuition paid to other schools is also part of the integrated cost.

The total integrated cost is divided by a town's "net average membership." This figure is the sum of pupils in local schools, other public school districts and in special needs day and residential schools.

The following data shows educational expenditures, pupil enrollments and the state average integrated operating costs over the last five years.

School Year	Costs	Annual % Change	Pupils	Annual % Change	Per Pupil Cost	Annual % Change
89-90	4,100,595,530	6.1%	824,773.6	-0.2%	4,972	6.3%
90-91	4,239,581,293	3.4%	834,304.1	-1.2%	5,082	2.2%
91-92	4,254,852,026	0.4%	845,230.6	1.3%	5,034	-0.9%
92-93	4,404,139,022	3.5%	858,431.1	1.6%	5,130	1.9%
93-94	4,691,400,547	6.5%	877,273.8	2.2%	5,348	4.2%

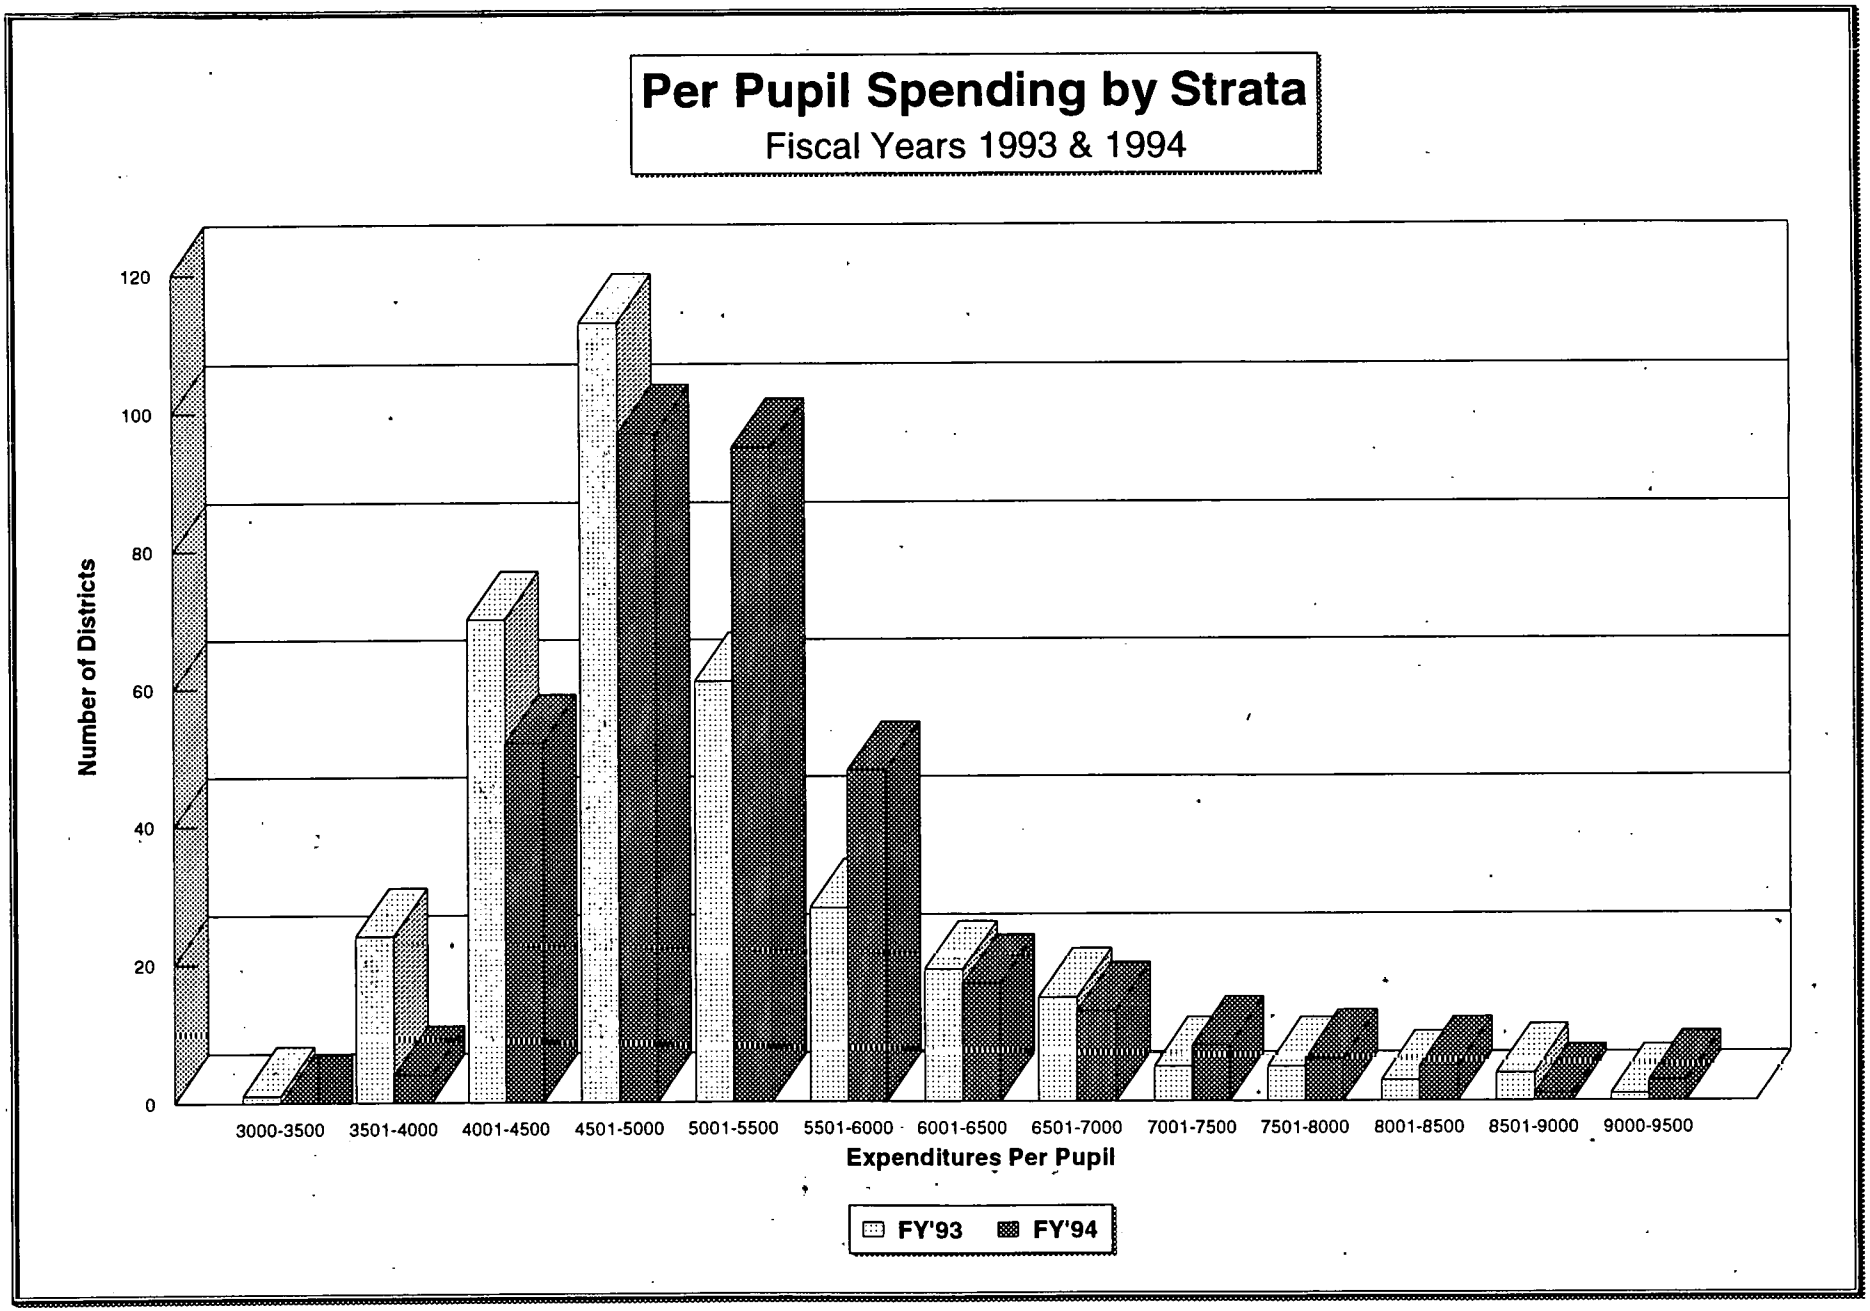

In fiscal year 1994, the first year of the Education Reform Law, the state committed an additional $143,500,282 of state aid to support local school districts. Municipalities were also required to increase school spending by over 66 million dollars. Educational expenditures increased in fiscal year 1994 by 6.5% while pupil enrollments increased by 2.2%.

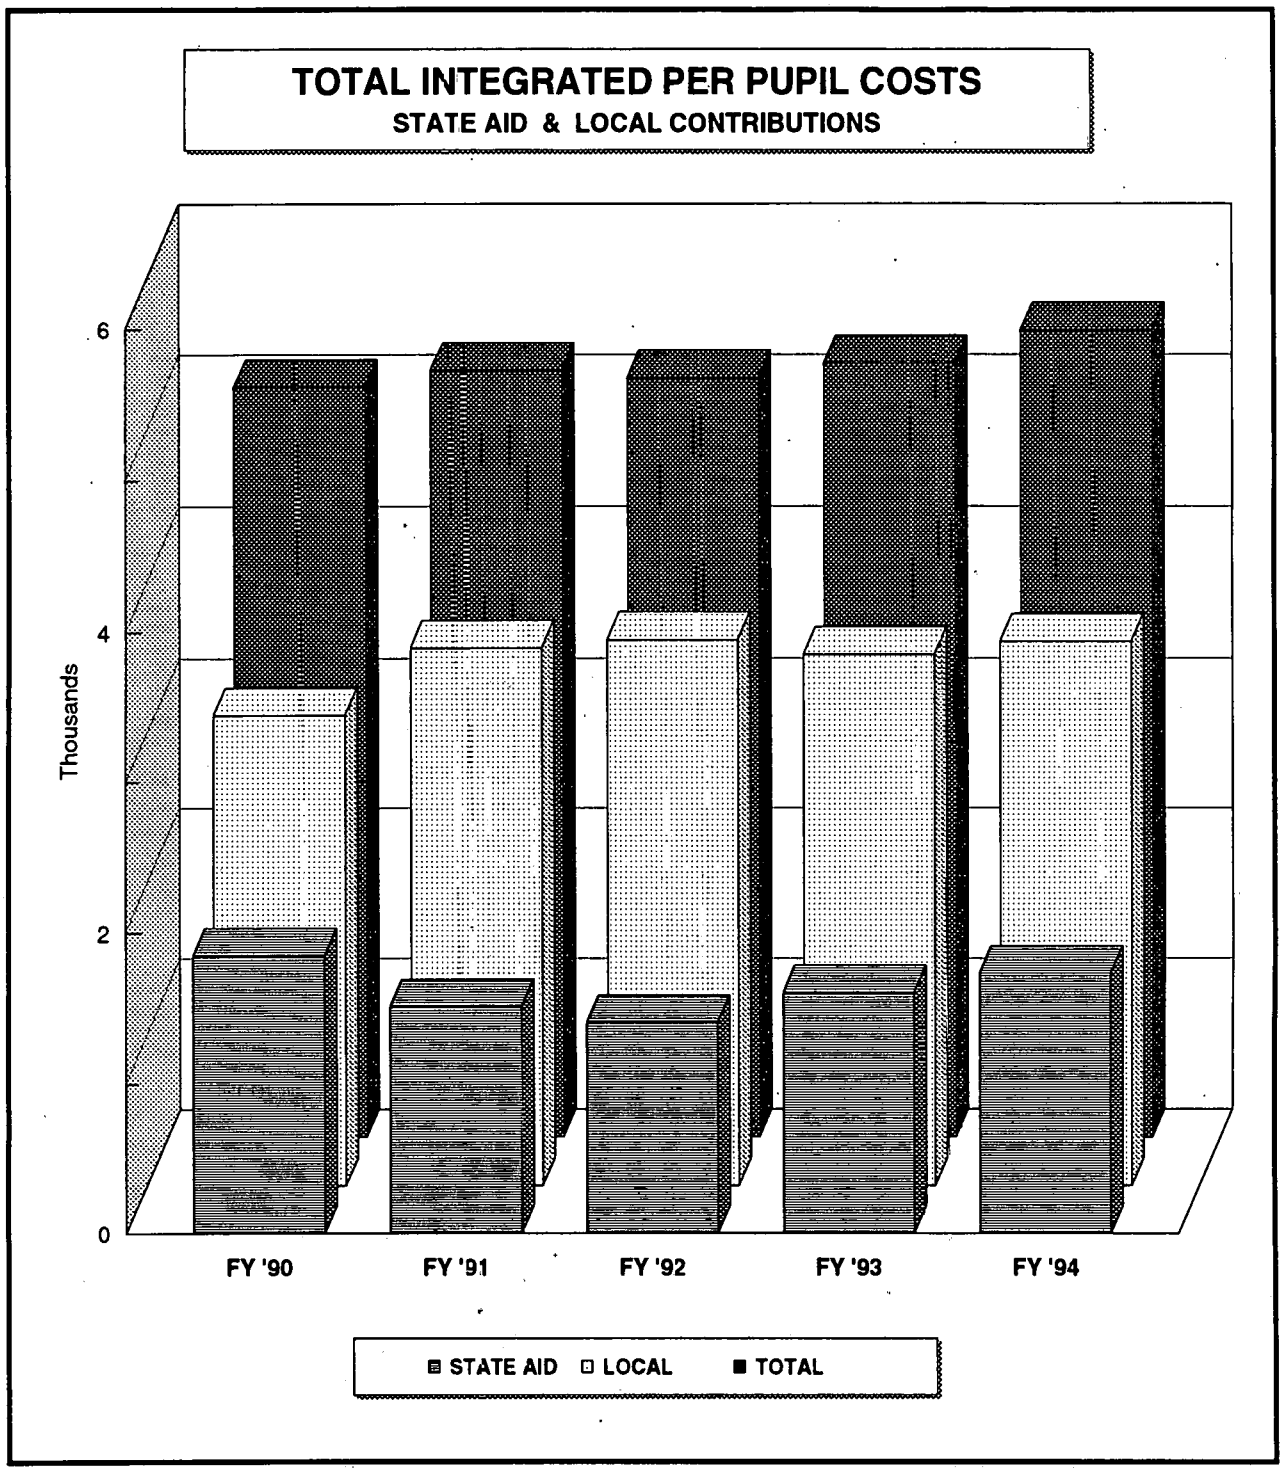

The 1993-1994 statewide average integrated operating cost in the first year of Education Reform is **$5,348.**

FREQUENCY DISTRIBUTION INTEGRATED OF PER PUPIL EXPENDITURES

The following chart shows the number of communities at each strata of integrated per pupil expenditures in FY'93 and FY'94. Two very small districts are omitted.

SUMMARY OF ALL DAY PROGRAMS

Per Pupil expenditure information is included for each school district based on their programmatic offerings in any of the regular, special, bilingual and occupational education programs offered to school children.

In 1993-1994, total current operating costs were distributed to the four programs according to the following percentages:

Program	% Share of Total Costs
Regular Day	72.93
Special Education	17.89
Bilingual	3.38
Occupational Day	5.79

The 1993-1994 statewide average per pupil expenditure for all day programs is **$5,235.**

COMMONWEALTH OF MASSACHUSETTS
DEPARTMENT OF EDUCATION
SCHOOL FINANCE SERVICES
1993-1994 PER PUPIL EXPENDITURES
REGULAR DAY PROGRAMS

In most districts, pupils are concentrated in the regular day program where they receive a general course of instruction. Average expenditures are reported for each district operating this program. Also published are per pupil costs for the kindergarten, elementary, junior or middle school and senior high school programs. Because of the different organizational structures, the grade levels for each school district are printed next to the per pupil expenditure to make comparisons easier.

The 1993-1994 statewide average per pupil expenditure for Regular Day Programs is **$4,369 .**

1993-1994 PER PUPIL EXPENDITURES
SPECIAL EDUCATION PROGRAMS

All districts must provide special instructional services to pupils whose educational needs cannot be satisfied in a regular day program. Pupils and expenditures fall into the following eight "program prototypes."

The expenditures and enrollments in the first four prototypes are combined in each school district's End of Year Pupil and Financial Report and the per-pupil expenditure published here is a composite of all four.

502.1 Modified In this prototype, children receive special instruction in their regular classroom.

502.2 Integrated Some children leave the regular classroom for their special instruction. In this prototype, the children receive these services for no more than 25% of the school week.

502.3 25%-60% Like the integrated prototype, this program requires children with special needs to spend part of the school week (from 25%-60%) outside the regular classroom.

502.4 Substantially Separate This prototype is reserved for special need pupils who must spend almost the whole school week in a classroom taught by a special teacher.

502.5 Day School Certain children attend private day schools for special needs pupils and their home school district is responsible for paying the tuition.

502.6 Residential This prototype describes private special needs schools where children live and attend class. As in the day school prototype, the home school districts pay the tuition.

502.7 Home or Hospital When pupils are sick at home or in the hospital, the school district assigns a tutor to give them private instruction.

502.8 Pre-School This prototype is designed for three-and four year-olds with special needs

In addition to the eight prototypes, there are two other categories of special education costs.

Screening describes the identification of children whose needs should be evaluated.

Evaluation is the assessment of a child's special needs and the development of an individual plan in one of the eight program prototypes.

The 1993-1994 statewide average per pupil expenditure for special needs programs is **$7,666.**

SCHOOL FINANCE SERVICES
1993-1994 PER PUPIL EXPENDITURES
BILINGUAL PROGRAMS

School Districts provide programs under Chapter 71A for children who do not understand English well enough to perform in the regular classroom. These pupils are taught in their native language in all regular subject areas and receive extra instruction in English.

The School district's per pupil expenditures and the grades in operation are published for the fifty-seven (57) districts operating transitional bilingual programs.

The 1993-1994 statewide average per pupil expenditures for transitional bilingual programs is **$5,539.**

1993-1994 PER PUPIL EXPENDITURES
OCCUPATIONAL DAY PROGRAMS

This course of instruction prepares high school pupils for employment in certain occupations. These instructional programs can be offered in either an academic or vocational high school.

Over 225 cities and towns are members of 29 regional vocational school districts. Local pupils attend the regional vocational school to receive occupational instruction. Sixty-four cities, towns and regional academic school districts provide occupational instruction in their own local or regional school.

Expenditures are included only for programs which have been approved by the Department of Education using the Chapter 74 Regulations. Per pupil expenditures are reported for nine clusters of occupational programs and are listed under the following headings:

a. Agriculture
b. Marketing
c. Technical Occupation
d. Cosmetology
e. Health
f. Consumer and Homemaking
g. Construction Occupation
h. Repair and Maintenance
i. Precision Production

The total listed in Column J is the school district average for all clusters of occupational programs. In an effort to streamline the reporting information required annually of each school district, the categorization of expenditures and pupils according to the type of occupational program offered was eliminated in the 1994-1995 End-of-Year Report. Consequently, the 1994-1995 per pupil expenditures will include only the average cost of all occupational programs offered by a school district.

The 1993-1994 statewide average per pupil expenditure for occupational day programs is **$7,843.**
