David P. Driscoll
Commissioner of Education

November 9, 1999

Dear Colleagues and Interested Parties:

Enclosed is the annual "Per Pupil Expenditures" booklet, which includes the final FY98 Per Pupil Expenditure by Program tabulations and additional tables that provide various perspectives concerning spending that occurred during the 1997-1998 school year. The report includes the following measures:

- Integrated Operating Cost Per Pupil
- Summary of All Day Programs
- Regular Day Expenditures Per Pupil by Grade Level
- Special Education Expenditures Per Pupil, by Prototype
- Bilingual Program Expenditures Per Pupil, by Grade Level
- Functional Costs Per Pupil, Selected Instructional and Non-Instructional Areas

This information is based upon numbers submitted on the FY98 End-of-Year Pupil and Financial Report in the fall of 1998 as well as any final amendments that districts filed as a result of our review of the information, up through the amendment deadline of June 30, 1999.

The entire booklet can be obtained in electronic format on our school finance web site (http://finance1.doe.mass.edu). If you have questions or comments, I encourage you to contact Phyllis Rogers in our School Finance office at 781-338-6534 (progers@doe.mass.edu)

Sincerely,

David P. Driscoll
Commissioner of Education

INTRODUCTION

The 1997-1998 Per Pupil Expenditures have been calculated from information in each district's End of Year Pupil and Financial Report.

Expenditures used in these computations include combinations of the following major operating costs.

Costs	Function
Administration	1000
Instruction	2000
Other School Services	3000
Maintenance	4000
Fixed Charges	5000
Non Public Transportation	6900
Tuition	9000-9400

All pupils are reported on a full-time equivalence basis(fte) which takes into account two factors:

(1) Pupils are reported on an average basis; e.g. a child who was enrolled in school for only half the year would be reported as 0.5 fte (2) Pupils are reported in each of the school programs where they are taught, e.g. a child who spends half the school day in the regular program and the other half in the special needs program would be reported as 0.5 fte in both.

When expenditures and pupils are reported in specific categories, the calculated per pupil expenditure can be quite high because the pupils are reported on a full-time equivalency basis. For example, for a special needs pre-school program, a district may report $1,000 for one child's program. If the district reports that this child spends 10% of the school day in this program, the child's full-time equivalency membership would be 0.10. To compute the per pupil expenditure, the Department of Education divides the total costs by the total fte membership. In this example, the total cost of $1,000 would be divided by the fte membership of 0.1 (10%). The result would be $10,000. Such a high average cost usually denotes a specific school program with a very low membership.

There are three types of per pupil expenditure presented in this publication.

INTEGRATED PER PUPIL COSTS represent what a city or town spends on a per pupil basis for its resident students (net average membership-NAM). This spending includes funds appropriated to the school committee budget; assessments to member regional school districts; municipal indirect costs to support education; tuition payments to other public or private schools and federal impact aid funds.

ALL DAY PER PUPIL COSTS represent what a school district spends on a per pupil basis for all locally enrolled students (average membership). District spending is derived from the school committee budget; municipal indirect educational costs; federal impact aid and school choice tuition income. Districts report pupil memberships and expenditures in any of the regular, special, bilingual and occupational education programs offered to school children. Within these programs, per pupil expenditures are further categorized by grade level.

FUNCTIONAL PER PUPIL COSTS represent the major categories of operational spending divided by the total average pupil membership.

SCHOOL DISTRICT CODES

The Department of Education assigns a three digit descriptive code to each of the 436 school districts in Massachusetts as follows:

CODES	DISTRICTS	
1 - 351	351	CODES 1 to 351 are assigned to cities and towns in the Commonwealth. Of these 245 operate some instructional program, while 106 belong to fully-organized regional school districts or make agreements to send local pupils to schools in neighboring districts.
400's	2	There are two independent vocational districts under the control of boards of trustees in two cities.
600 - 780	54	CODES 600-780 are assigned to the fifty-four regional academic districts which instruct children from two or more towns. Some of these districts operate programs in all grades and others operate only high schools.
800 - 885	26	CODES 800-885 are assigned to the twenty-six regional vocational districts which provide occupational instruction to high school pupils from two or more cities and towns.
900 - 915	3	There are three agricultural schools for secondary pupils operated by three counties.
TOTAL	**436**	

NOTE:

Charter Schools are public schools but do not submit End of Year Pupil and Financial Reports. In FY98 there were 25 operating charter schools. The tuition that sending districts pay to charters is included in the "integrated cost" but not in the other tables in this booklet.

Office of School Finance

Integrated Operating Costs

Because of the variety of the school district organizations, it is often difficult to compare per pupil expenditures. In order to standardize costs among districts, the Department of Education calculates an "integrated per pupil cost" for each of the 351 cities and towns in Massachusetts. These figures represent the average cost of education for all children residing in a community, regardless of the district where they attend school. In addition to a local district's current operating cost, a portion of regional district costs are added to each regional member's total spending. Tuition paid to other schools is also included in the integrated cost.

The total integrated cost is divided by a town's "net average membership". This figure is the sum of that community's pupils in local schools, regional schools, school choice districts, charter schools, special needs placements, and other public school settings.

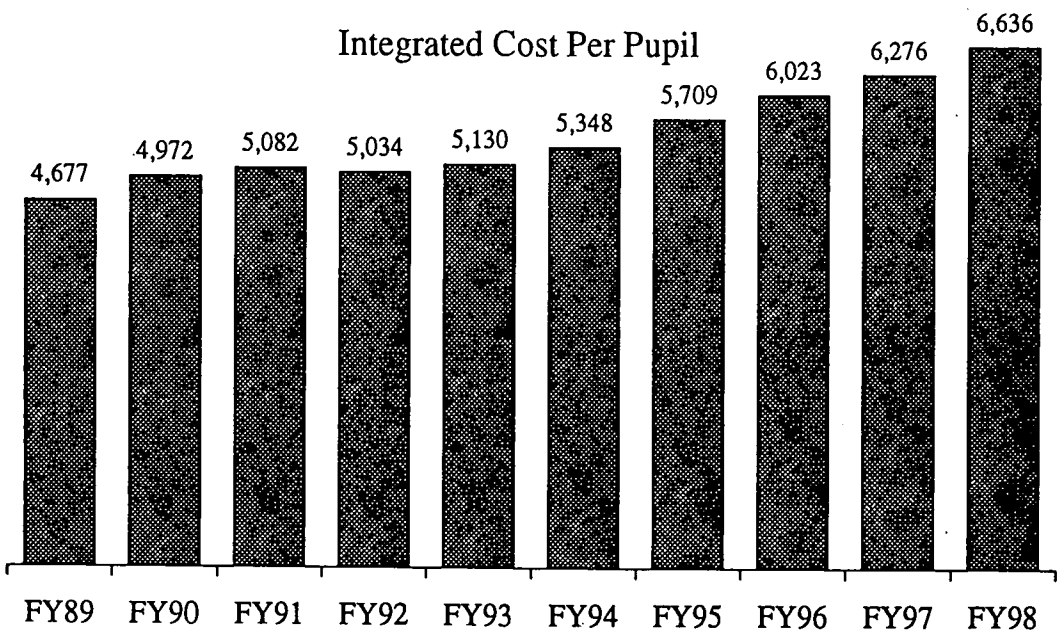

The following graph compares the integrated cost in FY93, the year prior to the passage of Education Reform, to the FY98 school year.

SUMMARY OF ALL DAY PROGRAMS

Per pupil expenditure information is included for each school district based upon its programmatic offerings in any of the regular, special, bilingual and occupational education programs available to school children. The total day cost is computed by dividing the sum of all programmatic costs by the total average membership.

The following graph represents the distribution of operating costs and full-time equivalent students by program.

	Regular	Special	Bilingual	Occupational	502.5/6
Spending	71.89%	18.83%	3.48%	5.34%	0.46%
Students	87.00%	5.51%	3.09%	3.73%	0.67%

REGULAR DAY PROGRAMS

In most districts, pupils are concentrated in the regular day programs where they receive a general course of instruction. Average expenditures are reported for each district operating a regular day program. Also published are per pupil costs for the kindergarten, elementary, junior or middle school and senior high school programs. Because of the different organizational structures, the grades in each district's program levels are printed next to the per pupil expenditure to make comparisons easier.

The 1997-1998 statewide average per pupil expenditure for Regular Day Programs is **$5,221**, an increase of $288 per pupil from school year 1996-1997.

The following graph reflects the percentage breakdown of spending and students in regular day programs by grade level.

Regular Day Spending and Students

	Pre School	Kinder garten	Elementary	Middle	High
Spending	0.82%	5.40%	42.81%	20.90%	30.05%
Students	1.26%	7.81%	45.33%	20.39%	25.20%

SPECIAL EDUCATION PROGRAMS

All districts must provide special instructional services to pupils whose educational needs cannot be satisfied in a regular day program. Pupils and expenditures fall into the following eight "program prototypes."

The expenditures and enrollments in the first four prototypes are combined in each school district's End of Year Pupil and Financial Report and the per-pupil expenditure published here is a composite of all four.

502.1	**Modified**	In this prototype, children receive special instruction in their regular classroom.
502.2	**Integrated**	Some children leave the regular classroom for their special instruction. In this prototype, the children receive these services for no more than 25% of the school week.
502.3	**25%-60%**	Like the integrated prototype, this program requires children with special needs to spend part of the school week (from 25%-60%) outside the regular classroom.
502.4	**Substantially Separate**	This prototype is reserved for special needs pupils who must spend almost the whole school week in a classroom taught by a special teacher.
502.5	**Day School**	Certain children attend private day schools for special needs pupils and their home school district is responsible for paying the tuition.
502.6	**Residential**	This prototype describes private special needs schools where children live and attend class. As in the day school prototype, the home school districts pay the tuition.
502.7	**Home or Hospital**	When pupils are sick at home or in the hospital, the school district assigns a tutor to give them private instruction.
502.8	**Pre School**	This prototype is designed for three and four year olds with special needs.

In addition to the eight prototypes, there are two other categories of special education costs.

Screening	Describes the identification of children whose needs should be evaluated.
Evaluation	Assessment of a child's special needs and the development of an individual plan in one of the eight program prototypes.

The 1997-1998 statewide average per pupil expenditure for special needs programs is **$9,873.**

TRANSITIONAL BILINGUAL PROGRAMS

School districts provide programs under Chapter 71A for children who do not understand English well enough to perform in the regular classroom. These pupils are taught in their native language in all the regular subjects and receive extra instruction in English.

The School District's per pupil expenditure and the grades in operation are published for the following fifty-five districts. These costs reflect the time spent in bilingual education only.

The 1997-1998 statewide average per pupil expenditure for transitional bilingual programs is **$7,106** an increase of $588 per pupil from 1997.

FY98 Functional Per Pupil Expenditures

Spending is reported on the annual End of Year Pupil and Financial Report by Program and by Function. The following two tables calculate per pupil spending by function, in instructional categories and then in selected non-instructional categories.

As in the case with the Per Pupil Expenditure by Program functional spending includes school-related expenditures from the school committee budget, municipality and from Federal impact aid funds. (P.L.874)
